## HISTORICAL NOTE

Amherst College bears the name not of an individual founder or promoter, nor of a religious denomination or dogma, but of the town in which it is located. The fact is significant. From its early years Amherst was the home of liberal-minded men who desired for their children better educational advantages than could be afforded by the old-time district schools. Through the plodding decades succeeding the close of the Revolution, however, this desire had to remain unrealized, until in 1812 the people of the town, among whom was a goodly number of college graduates, took steps to found a school of higher education, the Amherst Academy, a school of much distinction and usefulness in its day, which received its charter in 1816, the same year in which the earlier founded Hopkins Academy in Hadley was incorporated. From Amherst Academy, dedicated to the promotion of "morality, piety, and religion," and to "the instruction of youth in the learned languages," came in quite limited process of time Amherst College, whose immediate object, as expressed by Noah Webster at the laying of the corner-stone, was "that of educating for the gospel ministry young men in indigent circumstances, but of hopeful piety and promising talents." The address from which these words are quoted was delivered August 9, 1820. From this date the erection of the first building, the present South College, proceeded apace, aided by heartily given contributions of money, labor, and materials, both from Amherst and several surrounding towns; so that on September 18, 1821, the building completed, exercises of dedication and inauguration were held in the church building of the First Parish, now College Hall, and Amherst College, with a president, two professors, and forty-seven students, was on the following day opened for its growing

and honorable service to the community, the commonwealth, and the world. From the beginning its ideals have been of the highest, tolerating no limitations. "I should be wholly averse," wrote the first President in his letter of acceptance, "to becoming united with any institution which proposes to give a classical education inferior to that given in any of the colleges in New England."

After two adverse votes in the Legislature the College finally secured a charter from the Commonwealth, the date of its approval being February 21, 1825. A number of students in the intervening classes, being compelled to graduate without a degree, received their degrees from Union College, on suitable certificates from Amherst. Of the charter just mentioned a few words are all that the present sketch permits, or that are pertinent to present conditions. As to the Board of Trustees, it was "provided, . . . that the number of members (including the president of said college for the time being, who shall *ex officio* be one of said corporation) shall never be greater than seventeen"; and as to keeping that number good, it was in the same section "provided, further, that as vacancies shall occur in said Board, they shall be so filled that the said Board shall as soon as may be, and forever after, consist of seven clergymen and ten laymen." To legislate for so long ahead, however, is hazardous. "Forever after" is a good while. It does not take account of changes in conditions and in the spirit of the times. And such changes came, radical and far-reaching, long before the forever was well under way. Accordingly, in 1916, when it was felt that the large proportion of clergymen to laymen no longer adequately represented the alumni body, this stipulation of having seven clergymen on the Board was repealed.

The first five vacancies that occurred in the Board were filled by vote of the Legislature; but when, fifty years after

the founding of the college, the number of alumni had become sufficient to warrant it, the alumni were empowered to choose five members of the Board, electing one each year as their terms of service expired. Regarding instructors and students, it was enacted (Section 6), "That no instructor in said college shall ever be required by the trustees to profess any particular religious opinions as a test of office; and no student shall be refused admission to or denied any of the privileges, honors or degrees of said college on account of the religious opinions he may entertain."

The charter contains a curious section (Section 7), which is here mentioned for its historic and perhaps we may say providential interest. "And be it further enacted," the passage naïvely runs, "That if it shall hereafter appear to the Legislature of this Commonwealth lawful and expedient to remove Williams College to the town of Amherst, and the President and Trustees of Williams College shall agree so to do, the Legislature shall have full power to unite Williams and Amherst Colleges into one university at Amherst, on such terms and conditions and under such government as shall be agreed upon by the majority of a board of seven commissioners, of whom," etc. This enactment was made, it will be noted, four years after the first President of Amherst had resigned the presidency of Williams in order to come to this, as he deemed, more suitable town for a college, and brought with him fifteen students from Williamstown. The question of this transfer to Amherst was for some years a quite acute one, not agitated by the people of Amherst but by the ministers and others in the towns of western Massachusetts, and discussed, so far as can be ascertained, without any acrimony between the colleges. The providential interest intimated above lies in the fact that the union of the colleges was not effected. Both colleges, we may be sure, are the better for it.

The general government of the College is vested in the Board of Trustees. Its immediate direction is vested in the Faculty, who are empowered by the Trustees to determine the topics and order and method of study, and to make such rules as may be deemed necessary for the best regulation of the College.

The corporate name of the institution is "The Trustees of Amherst College."

We append here a list of the Presidents, with a few items of their lives and services.

The first President, Rev. Zephaniah Swift Moore, D.D., was born in Palmer, November 20, 1770; was graduated 1793 at Dartmouth College; at the time of his call to Amherst was President of Williams College, which office he resigned as stated above; was President, 1821 to 1823.

The second President, Rev. Heman Humphrey, D.D., was born in West Simsbury, Conn., March 26, 1779; was graduated from Yale College, 1805; was called to the presidency of Amherst from a pastorate in Pittsfield; was President, 1823 to 1845.

The third President, Rev. Edward Hitchcock, D.D., LL.D., was born in Deerfield, May 24, 1793; was a special student of theology and science at Yale College, 1826, from which institution he had already received the honorary degree of A.M. in 1818; was elected from the faculty to the presidency of Amherst; was President, 1845 to 1854.

The fourth President, Rev. William Augustus Stearns, D.D., LL.D., was born in Bedford, Mass., March 17, 1805; was educated at Harvard and at Andover, and was ordained in the Congregational Church, 1831; was President and Pastor of the College Church, 1854 to 1876.

The fifth President, Rev. Julius Hawley Seelye, D.D., LL.D., was born in Bethel, Conn., September 14, 1824; was graduated from Amherst College, 1849, and from Auburn

Theological Seminary, 1852; was Professor of Mental and Moral Philosophy at Amherst, 1858 to 1874; was elected to Congress, 1874; was President and Pastor of the College Church, 1876 to 1890.

The sixth President, Merrill Edwards Gates, Ph.D., LL.D., L.H.D., was born in Warsaw, N. Y., April 6, 1848; was graduated from the University of Rochester, 1870; was called to Amherst from the presidency of Rutgers College, 1890; was President of Amherst College, 1890 to 1899.

The seventh President, Rev. George Harris, D.D., LL.D., was born in East Machias, Me., April 1, 1844; was graduated from Amherst College, 1866, and from Andover Theological Seminary, 1869; was called to Amherst from Andover, where he was Professor of Christian Theology, 1899; was President, 1899 to 1912.

The eighth President, Alexander Meiklejohn, Ph.D., LL.D., was born in Rochdale, England, February 3, 1872; was graduated from Brown University, 1893, and from Cornell University (Ph.D.), 1897; was called to Amherst from Brown University, where he was Dean and Professor of Logic and Metaphysics, 1912; was President and Professor of Logic and Metaphysics, 1912-1924.

The ninth President, George Daniel Olds, LL.D., was born in Middleport, N. Y., October 14, 1853; was graduated from the University of Rochester, 1873; was called to Amherst from the University of Rochester, where he was Professor of Mathematics, 1891; was Professor of Mathematics at Amherst, 1891-1923, and Dean, 1910-1922; was elected from the faculty to the presidency of Amherst, June, 1923.

# CHARTER OF AMHERST COLLEGE

## WITH SUBSEQUENT LEGISLATION

One hundred years ago, three years after the founding of the College, it was incorporated by Act of the Massachusetts Legislature. The Charter, giving this act and subsequent ones, follows.

### ACTS OF 1824, CHAPTER 84

#### AN ACT TO ESTABLISH A COLLEGE IN THE TOWN OF AMHERST

SECTION 1. *Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same,* That there be and hereby is incorporated in the town of Amherst, in the county of Hampshire, a college for the education of youth; and that the Rev. Heman Humphrey, D.D., Hon. William Gray, Hon. Marcus Morton, Rev. Joshua Crosby, Hon. John Hooker, Rev. Joseph Lyman, D.D., Israel E. Trask, Esq., Rev. Jonathan Going, Elisha Billings, Esq., Rev. James Taylor, S. V. S. Wilder, Esq., Rev. Joseph Vaill, Hon. Jonathan Leavitt, Rev. Alfred Ely, Hon. Lewis Strong, Rev. Francis Wayland, Jr., and Elihu Lyman, Esq., be and hereby are constituted a body corporate by the name of the Trustees of Amherst College; and that they and their successors, and such as shall be duly elected members of said corporation, shall be and remain a body corporate by that name forever. And for the orderly conducting the business of said corporation the said trustees shall have power and authority, from time to time as occasion may require, to elect a president, vice-president, secretary and treasurer, and such other officers of said corporation as may be found necessary, and to declare the duties and tenures of their respective offices; and also to remove any trustee from the same corporation when, in their judgment, he shall be rendered incapable by age or

otherwise of discharging the duties of his office, or shall neglect or refuse to perform the same; and also from time to time to elect new members of the said corporation: *provided, nevertheless*, that the number of members (including the president of said college for the time being, who shall *ex officio* be one of said corporation) shall never be greater than seventeen, and that the five vacancies which shall first happen in the board of trustees shall be filled, as they occur, by the joint ballot of the Legislature in convention of both houses [and whenever any person so chosen by the Legislature to fill such vacancy, or his successor, shall cease to be a member of the corporation, his place shall be filled in like manner, and so on forever].<sup>1</sup> And it shall be the duty of the trustees to fill all other vacancies of their board as soon after they occur as reasonably and conveniently may be done; and *provided, further*, that as vacancies shall occur in said board, they shall be so filled that the said board shall as soon as may be, and forever after, consist of seven clergymen and ten laymen;<sup>2</sup> and the Rev. Heman Humphrey, D.D., is authorized to fix the time and place of the first meeting of the said trustees, and to notify each of them thereof in writing.

SECT. 2. *And be it further enacted*, That the said corporation shall have full power and authority to determine at what times and places their meetings shall be holden, and the manner of notifying the trustees to convene at such meetings; and also from time to time to elect a president of said college, and such professors, tutors, instructors and other officers of the said college as they shall judge most for the interest thereof, and to determine the duties, salaries, emoluments, responsibilities and tenures of their several offices. And the said corporation are further empowered to purchase or erect and keep in repair such houses and other

buildings as they shall judge necessary for the said college; and also to make and ordain, as occasion may require, reasonable rules, orders and by-laws, not repugnant to the constitution and laws of this Commonwealth, with reasonable penalties, for the good government of the said college and for the regulation of their own body; and also to determine and regulate the course of instruction in said college, and to confer such degrees as are usually conferred by colleges in New England, except medical degrees: *provided, nevertheless*, that no corporate business shall be transacted at any meeting unless nine at least of the trustees are present.

SECT. 3. *And be it further enacted*, That the said corporation may have a common seal, which they may alter or renew at their pleasure, and that all deeds sealed with the seal of said corporation and signed by their order shall, when made in their corporate name, be considered in law as the deed of said corporation; and that said corporation may sue and be sued in all actions, real, personal or mixed, and may prosecute the same to final judgment and execution, by the name of the Trustees of Amherst College; and that said corporation shall be capable of taking and holding in fee simple or any less estate, by gift, grant, bequest, devise or otherwise, any lands, tenements or other estate, real or personal [*provided*, that the clear annual income of the same shall not exceed thirty thousand dollars].<sup>1</sup>

SECT. 4. *And be it further enacted*, That the clear rents and profits of all the estate, real and personal, of which the said corporation shall be seized and possessed, shall be appropriated to the endowment of said college in such manner as shall most effectually promote virtue and piety, and the knowledge of such of the languages and of the liberal and useful arts and sciences as shall be directed from time to time by the said corporation, they conforming to the will of any donor or donors in the application of any estate re-

<sup>1</sup> This proviso is amended by Stat. 1867, chap. 26, *post*, page 20, and repealed by Stat. 1874, chap. 204, sect. 6, *post*, page 23. See Chapter 173, Acts of 1902.

ceived which may be given, devised or bequeathed for any particular object connected with the college.

SECT. 5. *And be it further enacted*, That the said trustees be and are hereby authorized to receive all the real estate, goods, chattels, choses in action and property of every description whatever which has heretofore been given, conveyed, purchased, bequeathed, devised, or in any other way secured or engaged to be given, paid or devised, to the Trustees of Amherst Academy, with the intent and for the purpose of establishing and maintaining a classical or collegiate institution in said town; and that all the said funds and estate, as well as all other property which may be received by them, shall be faithfully and forever used and appropriated according to the will of the donors: *provided*, that the several acts and contracts of the Trustees of Amherst Academy relative to the property given for the benefit, and debts incurred by them for the use, of the said collegiate institution, shall have full force and be equally binding upon the Trustees of Amherst College as they now are upon the trustees of said academy.

SECT. 6. *And be it further enacted*, That no instructor in said college shall ever be required by the trustees to profess any particular religious opinions as a test of office; and no student shall be refused admission to or denied any of the privileges, honors or degrees of said college on account of the religious opinions he may entertain.

SECT. 7. *And be it further enacted*, That if it shall hereafter appear to the Legislature of this Commonwealth lawful and expedient to remove Williams College to the town of Amherst, and the President and Trustees of Williams College shall agree so to do, the Legislature shall have full power to unite Williams and Amherst Colleges into one university at Amherst, on such terms and conditions and under such government as shall be agreed on by the majority of a board of seven commissioners, of whom two shall be ap-

pointed by each of said colleges, and three by the joint ballot of the Legislature in convention of both houses; and in case the commissioners or either of them on the part of the Amherst College shall not be appointed, then the residue of said commissioners shall have full power to proceed in the premises: *provided, also*, that if the said Trustees of Amherst Academy shall not within eight months from the passing of this act, by a good deed or deeds, assign, convey and make over to the said Trustees of Amherst College, their successors and assigns, all the real estate, goods, chattels, choses in action and property mentioned in the fifth section of this act, to be used and appropriated as is therein provided, this act shall be void.

SECT. 8. *And be it further enacted*, That the Legislature of this Commonwealth may grant any further powers to, or alter, limit, annul or restrain any of the powers vested by this act in, the said corporation, as shall be judged necessary to promote the best interests of the said college; and more especially may appoint and establish overseers or visitors of the said college with all necessary powers for the better aid, preservation and government thereof: *provided*, that the granting of this charter shall never be considered as any pledge on the part of Government that pecuniary aid shall hereafter be granted to the college. AN ACT TO INCREASE THE SCHOOL FUND, AND TO GRANT AID TO THE MUSEUM OF COMPARATIVE ZOÖLOGY, TUFTS, WILLIAMS, AND AMHERST COLLEGES, AND THE WESLEYAN ACADEMY AT WILBRAHAM, OUT OF THE PROCEEDS OF THE SALES OF BACK BAY LANDS

SECTION I. \* \* \* The remaining avails of such moiety shall, after being received into the treasury, be dis-

tributed, upon the first day of August in each year, among the institutions hereinafter named in the proportions following, that is to say:

1. Twenty per centum of the avails of such moiety shall be paid to such persons as may at the present session of the Legislature be incorporated as the "Trustees of the Museum of Comparative Zoölogy"; such payments not to exceed in the aggregate the sum of one hundred thousand dollars.

2. Twelve per centum of the avails of such moiety shall be paid to the treasurer of the trustees of Tufts College upon the order of the trustees; such payments not to exceed in the aggregate the sum of fifty thousand dollars.

3. Six per centum of the avails of such moiety shall be paid to the treasurer of the corporation of Williams College upon the order of said corporation; such payments not to exceed in the aggregate the sum of twenty-five thousand dollars.

4. Six per centum of the avails of such moiety shall be paid to the treasurer of the corporation of Amherst College upon the order of the corporation; such payments not to exceed in the aggregate the sum of twenty-five thousand dollars.

5. Six per centum of the avails of such moiety shall be paid to the treasurer of the corporation of the Wesleyan Academy in Wilbraham upon the order of the corporation; such payments not to exceed in the aggregate the sum of twenty-five thousand dollars.

SECT. 2. No payment as aforesaid shall be made to either of the before-named institutions unless, before the time for each payment, it shall be made to appear to the satisfaction of the governor and council that there has been secured by subscription in aid of such institution, in cash or bonds of unquestionable security, an amount equal to the amount then to be paid to such institution according to the

terms of this act; nor to either of the institutions hereinafter named unless there shall have been established in such institutions the number of free scholarships set against their respective names, that is to say:

In Williams College, three free scholarships.

In Tufts College, three free scholarships.

In Amherst College, three free scholarships.

The aforesaid free scholarships shall be under the control of the Board of Education, and may be filled and managed in such mode as now is or may hereafter be provided by law for the regulation of all free scholarships established by the Commonwealth. \* \* \* [*Approved, April 2, 1859.*]

## DEGREES

### BACHELOR OF ARTS

The Degree of Bachelor of Arts is conferred upon students of Amherst College who have satisfactorily met the requirements prescribed for that degree. The plan of studies leading to the Degree of Bachelor of Arts is arranged on the basis of a four years' course to be pursued by students in residence at the College.

Plans are offered, however, which enable candidates for the degree to complete the course of study in less than four years either wholly at Amherst or in part at other colleges. (See page 73.)

Diplomas are graded as *rite*, *cum laude*, *magna cum laude*, *summa cum laude*, according to scholarship.

*Summa cum laude* rank is fixed at ninety-three per cent, *magna cum laude* at eighty-eight per cent, and *cum laude* at eighty per cent.

A detailed statement of the curriculum will be found on page 74.

### COURSE WITHOUT DEGREE

Students who desire to pursue a course of study varying from the regular curriculum are occasionally admitted to Amherst College as special students, not candidates for a degree. Rules relating to special students will be found on page 75.

### MASTER OF ARTS

The Degree of Master of Arts is conferred upon Bachelors of Amherst College and of other colleges that confer the Bachelor's degree under conditions equivalent to those at

Amherst College, who, having spent one year in residence at Amherst, have satisfactorily met the requirements prescribed for that degree.

For a detailed statement of these requirements see page 75.

## ADMISSION

*All correspondence concerning admission should be addressed  
to the Secretary of the Faculty*

All candidates for admission to College must present satisfactory testimonials of good character.

The subjects which may be presented in satisfaction of the requirements for admission to the Freshman Class, together with the number of points at which each is valued, are given in the following list. The basis of valuation is one point for a course pursued five hours per week for a school year.

<i>Subject</i>	<i>Rating</i>	<i>Subject</i>	<i>Rating</i>
Biology	$\frac{1}{2}$ or 1*	Latin 4	1
Botany	$\frac{1}{2}$ or 1*	Latin 5	1
Chemistry	1	Mathematics A (A1 + A2)	2
English 1	2	Mathematics A1	1
English 2	1	Mathematics A2	1
French A (2 years)	2	Mathematics C	1
French B (3d year)	1	Mathematics B	$\frac{1}{2}$
German A (2 years)	2	Mathematics D	$\frac{1}{2}$
German B (3d year)	1	Mathematics E	$\frac{1}{2}$
Greek A, B	2	Music (harmony)	1
Greek C, F, H	1	Physics	1
History A	1	Physiography	$\frac{1}{2}$ or 1*
History B	1	Physiology	$\frac{1}{2}$ or 1*
History C	1	Spanish A (2 years)	2
History D	1	Spanish B (3d year)	1
Latin 1, 2	2		

A description of these subjects arranged in alphabetical order will be found on pages 43 ff.

\* According to the length of the course.

## COURSE LEADING TO THE DEGREE OF BACHELOR OF ARTS

## ENTRANCE WITHOUT CONDITIONS

All candidates for a degree must, in order to enter without conditions, have at the time of their admission credits which amount to fifteen points. The credits thus presented must include:

<i>Subject</i>	<i>Points</i>
English 1	2
English 2	1
History, ancient preferred	1
Mathematics A (algebra through quadratics)	2
Mathematics C (plane geometry)	1
One ancient language	
Latin 1, 2, 4, 5	4
or Greek A, B, C, F, H	3
A second foreign language	
Latin	3
or Greek	2
or a modern language	2

The remaining credits must be presented from the subjects contained and rated in the list on the preceding page.

## ENTRANCE WITH CONDITIONS

Candidates who lack the full entrance requirement may be admitted as conditioned students. Such cases are considered separately, but in general it is not the policy of the Committee on Admission to accept candidates with conditions amounting to more than two points. In particular every candidate must have at the time of his admission credits which include at least two points in English, one point in mathematics, and two points in Greek or three points in Latin.

A student conditioned in Latin 5 (Vergil) only, who presents, however, fifteen points for entrance including a point

of advanced work (Mathematics E with either B or D, or a third year of modern language, or two years of a second modern language) is "provisionally" conditioned; which means that it will not be necessary for him to take an extra year-course beyond the ordinary requirement for a degree.

### REMOVAL OF ENTRANCE CONDITIONS

All entrance conditions must be made up before the beginning of the Junior year, and no student is allowed to enter upon the work of that year unless all such conditions have been removed.

Since courses for beginners in French, German, and Greek are offered by the College, it is possible for those who enter with conditions in these subjects to remove such conditions by taking the corresponding courses in college. Ordinarily college studies which are thus used for the removal of entrance conditions must be taken as extra courses, but the extent to which this is necessary will depend upon the number of points of advanced credit (i. e. the equivalent of courses offered in college) which the candidate presents over and above the amount required for admission. Information bearing on individual cases may be obtained by correspondence with the Secretary of the Faculty.

Candidates who present entrance credit for less than four years of Latin may complete the total requirement of the College in ancient languages as follows:

(1) Those having credit for Latin 1, 2, 4 may (a) take two years of Latin in college, one of which is a course in Vergil, or (b) discontinue Latin and begin the study of Greek, continuing that subject for three years.

(2) Those having credit for Latin 1, 2, 5 may (a) continue in Latin, taking the course of the Freshman year in that subject, with the understanding that the entrance deficiency must be removed later by passing an examination

in Latin 4, or (b) discontinue Latin and begin the study of Greek, continuing that subject for three years.

It should be noticed that all adjustments are made subject to the general requirement of fifteen points for admission and twenty year courses in college.

### ADMISSION SUBJECTS IN DETAIL

In the following accounts of subjects in detail, the letters and numerals at the left represent the divisions of the subject recognized by the College Entrance Examination Board and used in designating their examination papers.

#### BIOLOGY

The course should consist of recitations and laboratory exercises occupying five hours a week through not less than a half year. It should cover a study of the structure and physiology of plants and animals, with special attention to the human body. In addition practical problems involving man's relation to his environment should receive consideration. A laboratory notebook, properly certified, may be presented at the examination.

#### BOTANY

The candidate should complete a course of recitation and laboratory work of not less than five hours a week for one-half of a school year. The class work should cover the structure and important physiological processes of flowering plants. The candidate should present at the time of taking the examination a laboratory book properly certified by the instructor. No credit will be given for an herbarium. The following text-books are recommended: Atkinson's *Botany for Schools*, Bergen and Caldwell's *Practical Botany*, Stevens' *Introduction to Botany*.

## CHEMISTRY

The examination will include illustrations from any of the following topics in non-metallic chemistry:

Properties of the principal acid-forming elements and their compounds; simple problems on relations by weight; relations between gas-volumes and the weights of chemically related solids; acids, bases, and salts; formation of acids and bases from their salts; valence; series of oxy-acids and their salts; oxidation and reduction; acid anhydrides; hydrated and poly-acids.

## ENGLISH

The requirement in English is that recommended by the National Conference on Uniform Entrance Requirements in English.

## REQUIREMENT FOR 1923-1925

I. *Habits of correct, clear, and truthful expression.* This part of the requirement calls for a carefully graded course in oral and written composition, and for instruction in the practical essentials of grammar, a study which ordinarily should be reviewed in the secondary school. In all written work constant attention should be paid to spelling, punctuation, and good usage in general as distinguished from current errors. In all oral work there should be constant insistence upon the elimination of such elementary errors as personal speech-defects, foreign accent, and obscure enunciation.

II. *Ability to read with intelligence and appreciation works of moderate difficulty; familiarity with a few masterpieces.* This part of the requirement calls for a carefully graded course in literature. Two lists of books are provided from which a specified number of units must be chosen for reading and study. The first, designated as the A List, contains

selections appropriate for the earlier years in the secondary school. These should be carefully read, in some cases studied, with a measure of thoroughness appropriate for immature minds. The second, designated as the B List, contains selections for the closer study warranted in the later years. The progressive course formed from the two lists should be supplemented, at least by home reading on the part of the pupil and by class-room reading on the part of pupils and instructor. It should be kept constantly in mind that the main purpose is to cultivate a fondness for good literature and to encourage the habit of reading with discrimination.

#### THE A LIST

From each group two selections are to be made, except that for any book in Group V a book from any other may be substituted.

GROUP I. Dickens, *A Tale of Two Cities*; George Eliot, *Silas Marner*; Scott, *Quentin Durward*; Stevenson, *Treasure Island* or *Kidnapped*; Hawthorne, *The House of the Seven Gables*.

GROUP II. Shakespeare, *Merchant of Venice*, *Julius Cæsar*, *King Henry V*, *As You Like It*.

GROUP III. Scott, *The Lady of the Lake*; Coleridge, *The Ancient Mariner*; and Arnold, *Sohrab and Rustum*; a collection of representative verse, narrative and lyric; Tennyson, *Idylls of the King* (any four); *The Æneid* or *The Odyssey* in a translation of recognized excellence, with the omission, if desired, of Books I-V, XV, and XVI of *The Odyssey*.

GROUP IV. The *Old Testament* (the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings,

and Daniel, together with the books of Ruth and Esther); Irving, *The Sketch Book* (about 175 pages); Addison and Steele, *The Sir Roger de Coverley Papers*; Macaulay, *Lord Clive*; Parkman, *The Oregon Trail*; Franklin, *Autobiography*.

GROUP V. A modern novel; a collection of short stories (about 150 pages); a collection of contemporary verse (about 150 pages); a collection of prose writings on matters of current interest (about 150 pages); two modern plays.

All selections from this group should be works of recognized excellence.

#### THE B LIST

One selection is to be made from each group.

GROUP I. Shakespeare, *Macbeth*, *Hamlet*.

GROUP II. Milton, *L'Allegro*, *Il Penseroso*, and either *Comus* or *Lycidas*; Browning, *Cavalier Tunes*, *The Lost Leader*, *How They Brought the Good News from Ghent to Aix*, *Home Thoughts from Abroad*, *Home Thoughts from the Sea*, *Incident of the French Camp*, *Hervé Riel*, *Pheidippides*, *My Last Duchess*, *Up at a Villa—Down in the City*, *The Italian in England*, *The Patriot*, *The Pied Piper*, "De Gustibus—", *Instans Tyrannus*, *One Word More*.

GROUP III. Macaulay, *Life of Johnson*; Carlyle, *Essay on Burns*, with a brief selection from Burns' Poems; Arnold, *Wordsworth*, with a brief selection from Wordsworth's Poems.

GROUP IV. Burke, *Speech on Conciliation with America*; a collection of orations, to include at least Washington's *Farewell Address*, Webster's *First Bunker Hill Oration*, and Lincoln's *Gettysburg Address*.

## EXAMINATIONS FOR 1923-1925

The examination will be in two parts. The first part will test powers of correct, clear, truthful expression. The candidate will write one or more compositions several paragraphs in length. For this purpose a list of eight or ten subjects will be provided. These may be suggested in part by the books recommended for reading, but a sufficient number from other sources will make it possible for the candidate to draw upon his own experience and ideas. He will not be expected to compose at a more rapid rate than three hundred fifty words an hour, but his work must be free from common errors in grammar, idiom, spelling, and punctuation, and should show that he understands the principles of unity and coherence. In addition, questions may be asked on the practical essentials of grammar, such as the construction of words and the relation of various parts of a sentence to one another.

The second part will test the faithfulness with which the candidate has studied the work recommended for study and his ability to grasp quickly the meaning of a passage of prose or verse that he has not previously seen and to answer simple questions on its literary qualities. The examination may call also for the writing of a short composition.

In connection with the second part of the examination the candidate may be required by the college to submit a statement certified by his principal specifying what books he has read during his secondary school course, and indicating the quality and character of his spoken English.

## FRENCH

The requirements in French follow the recommendations of the Committee of Twelve of the Modern Language Association of America.

See page 87 for college courses which correspond to entrance French A, B.

## A. ELEMENTARY FRENCH

During the first year the work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the inflection of the regular and the more common irregular verbs, the plural nouns, the inflection of adjectives, participles, and pronouns; the use of personal pronouns, common adverbs, prepositions, and conjunctions; the order of words in the sentence, and the elementary rules of syntax; (3) abundant easy exercises, designed not only to fix in the memory the forms and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (4) the reading of from 100 to 175 duodecimo pages of graduated texts, with constant practice in translating into French easy variations of the sentences read (the teacher giving the English) and in reproducing from memory sentences previously read; (5) writing French from dictation.

Suitable texts for the first year are: A well graded reader for beginners; Bruno, *Le Tour de la France*; Compayré, *Yvan Gall*; Laboulaye, *Contes bleus*; Malot, *Sans Famille*.

During the second year the work should comprise: (1) the reading of from 250 to 400 pages of easy modern prose in the form of stories, plays, or historical or biographical sketches; (2) constant practice, as in the previous year, in translating into French easy variations upon the texts read; (3) frequent abstracts, sometimes oral and sometimes written, of portions of the text already read; (4) writing French from dictation; (5) continued drill upon the rudiments of grammar, with constant application in the construction of sentences; (6) mastery of the forms and use of pronouns, pronominal adjectives, of all but the rare irregular verb forms, and of the simpler use of the conditional and subjunctive.

Suitable texts for the second year are: Daudet, *Le Petit*

*Chose*; Erckmann-Chatrian, stories; Halévy, *L'Abbé Constantin*; Labiche et Martin, *Le Voyage de M. Perrichon*; Lavissee, *Histoire de France*.

## B. INTERMEDIATE FRENCH

This should comprise the reading of from 400 to 600 pages of French of ordinary difficulty, a portion to be in the dramatic form; constant practice in giving French paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; the study of a grammar of moderate completeness; writing from dictation.

Suitable texts for the third year are: Bazin, *Les Oberlé*; Dumas, novels; Mérimée, *Colomba*; Sandeau, *Mlle. de la Seiglière*; Tocqueville, *Voyage en Amérique*.

## GERMAN

The admission requirements in German follow the recommendations of the Committee of Twelve of the Modern Language Association of America.

See page 89 for college courses which correspond to entrance German A, B.

## A. ELEMENTARY GERMAN

During the first year the work should comprise: (1) careful drill upon pronunciation; (2) the memorizing and frequent repetition of easy colloquial sentences; (3) drill upon the rudiments of grammar, that is, upon the inflection of the articles, of such nouns as belong to the language of everyday life, of adjectives, pronouns, weak verbs and the more usual strong verbs; also upon the use of the more common prepositions, the simpler uses of the modal auxiliaries, and the elementary rules of syntax and word-order; (4) abundant easy exercises designed not only to fix in mind the forms and principles of grammar, but also to cultivate

readiness in the reproduction of natural forms of expression; (5) the reading of from 75 to 100 pages of graduated texts from a reader, with constant practice in translating into German easy variations upon sentences selected from the reading lesson (the teacher giving the English), and in the reproduction from memory of sentences previously read.

Suitable texts for the first year are: after one of the many readers especially prepared for beginners,—Meissner's *Aus meiner Welt*; Blüthgen's *Das Peterle von Nürnberg*; Storm's *Immensee*, or any of Baumbach's short stories.

During the second year the work should comprise: (1) the reading of from 150 to 200 pages of literature in the form of easy stories and plays; (2) accompanying practice, as before, in the translation into German of easy variations upon the matter read and also in the off-hand reproduction, sometimes orally and sometimes in writing, of the substance of short and easy selected passages; (3) continued drill upon the rudiments of the grammar, directed to the ends of enabling the pupil, first, to use his knowledge with facility in the formation of sentences, and, secondly, to state his knowledge correctly in the technical language of grammar.

Suitable texts for the second year are: Gerstäcker's *Germelshausen*; Eichendorff's *Aus dem Leben eines Taugenichts*; Wildenbruch's *Das edle Blut*; Jensen's *Die braune Erica*; Seidel's *Leberecht Hühnchen*; Fulda's *Unter vier Augen*; Benedix's *Lustspiele* (any one).

At least six German poems should be committed to memory each year.

## B. INTERMEDIATE GERMAN

The work should comprise, in addition to the elementary course, the reading of about 400 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes orally and sometimes in writing, paraphrases,

abstracts, or reproductions from memory of selected portions of the matter read; also grammatical drill upon the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and moods (with special reference to the infinitive and subjunctive), and likewise upon word-order and word-formation.

Suitable texts for the third year are: Heyse's, Riehl's, Keller's, Storm's, Meyer's, Ebner-Eschenbach's, W. Raabe's *Novellen* or *Erzählungen*; Schiller's *Wilhelm Tell*; Freytag's *Die Journalisten*; Heine's *Harzreise*.

At least six German poems should be committed to memory.

## GREEK

### ELEMENTARY GREEK

A. 1. Greek Grammar.

2. Greek Composition. Translation into Greek of short sentences illustrating common principles of syntax.

The examination in grammar and prose composition will be based on the first two books of Xenophon's *Anabasis*.

B. Xenophon's *Anabasis*, Books I-IV.

### ADVANCED GREEK

C. Homer's *Iliad*, Books I-II (omitting Book II 494-end) and the Homeric forms, constructions, idioms and prosody.

F. Prose composition, consisting of continuous prose based on Xenophon and other Attic prose of similar difficulty.

H. Translation of passages of Homer at sight.

## HISTORY

The requirements are those adopted by the College Entrance Examination Board, April 21, 1923.

## A. ANCIENT HISTORY

The course should devote one-half of the year to the study of the history of the ancient Orient and of Greece as far as the death of Alexander and the break-up of his empire, with the expansion of Greek culture in the Mediterranean World. The second half-year should be devoted to the study of the history of Rome to the year 476 A.D.

Since not more than one-tenth of the whole time available can be allotted to the study of the history of the Orient, only so much of its narrative history should be studied as will hold the story together and fix its geography and its time relations. Emphasis should be laid, not upon the details of military and political history, but upon the civilization developed by the different peoples of the Orient, with particular reference to the contributions which they made to later ages.

In the study of Greek history, little time should be spent on the period prior to the Persian Wars, except to deal concretely with Homeric society and to emphasize the expansion of Hellas. From the Persian Wars to the death of Alexander the study should be exact and thorough, with special reference to the political, intellectual, and artistic development of Hellas during the Age of Pericles. Instead of trying to trace the constitutional development of Athens and of Sparta from the beginning, the operation of the government in these states at the time of their maturity should be mastered.

In the period following the death of Alexander no attempt should be made to follow the intricate political history of the time, but opportunity should be found to study the federal government of Greece and the philosophy, literature, art, and religious cults which were the factors of the mixed Græco-Oriental culture of which Rome became the heir.

At the beginning of the second half-year the history of

Rome to about the year 300 B.C. should be covered very rapidly. The attempt should be made rather to understand the organization and working of Senatorial government in the third and second centuries B.C. than to the trace changes made in Roman institutions in the fifth and fourth centuries. From 300 B.C. to the death of Marcus Aurelius the study must be relatively detailed and thorough.

### B. EUROPEAN HISTORY

The examination in this subject is designed both for the students who have prepared in Medieval and Modern European history and for those who have prepared in Modern European history only.

Students who are offering Medieval and Modern European history will not be held to so detailed a knowledge of the nineteenth century as those offering only Modern European history. They should emphasize the contributions of the Roman Empire, the Germans, and the Christian Church to medieval civilization. The structure of feudal society, the Crusades, the formation of the European states, the several phases of the Renaissance and of the Reformation, and the discoveries outside of Europe should be covered.

Students who are offering Modern European history should emphasize the absolute monarchy of Louis XIV, colonial expansion and rivalries, the development of the constitutional monarchy in England, the enlightened despotism of Frederick the Great, the republican government of Revolutionary France, the Napoleonic epoch, and the main facts in the political development of Europe since 1815. Special emphasis should be laid upon the Industrial Revolution—its political and social aspects—upon the growth of nationalism and democracy, and upon the economic expansion of the European possessions outside of Europe. The study of the last half-century should include

some account of the great material changes, important inventions, and intellectual and social and humanitarian movements.

### C. ENGLISH HISTORY

The division of the work between the two half-years should be made at about 1660.

During the first half-year, the periods of the Tudors and the early Stuarts should receive emphasis. Only the briefest reference to the period before 1066 need be made, and from the Norman Conquest to the accession of the Tudors the treatment should be topical rather than exhaustive. It should deal with the effects of the Norman Conquest, relations with France, Scotland, and Ireland, Magna Carta and the origins of Parliament, and the emergence of parliamentary government out of the feudal monarchy. Some attempt also should be made to explain the development and character of the Christian Church in England, its relations with the papacy, the severance of these relations, the establishment of the national church, and the Puritan movement.

In the second half-year, starting with the Restoration, attention should be given first to the continued struggle between Crown and Parliament, culminating in the establishment of responsible government. In studying the great wars with France, attention should be directed to the commercial and colonial expansion in America and the East. With regard to imperial policy, the causes and effects of the Scottish and Irish unions and the revolt of the American colonies should be explained. The study of the revolution in agriculture, industry, and transportation should include some consideration of the consequent political and social reforms. Since the Reform Act of 1867, emphasis should be laid upon the more important reforms affecting eco-

conomic, political, and social life, and upon the problem of Ireland. Some idea should be given of the growth and nature of the British power in the Colonies and the problem of imperial organization.

In general, it is desirable to emphasize the important epochs and movements rather than the reigns of the monarchs; to trace developments; to secure a clear comprehension of the more influential personalities; and to show the relations of English history to the history of other countries, especially the United States.

#### D. AMERICAN HISTORY, WITH OR WITHOUT CIVIL GOVERNMENT

Candidates who wish to offer American History and Civil Government should devote at least one-fourth of their time to civil government. This study should be closely coordinated with American history at every point of contact.

The period of American history prior to 1763 may be treated briefly as a background for subsequent epochs. The period since the Civil War should receive adequate attention (about as much time as the period between 1763 and 1865). Questions on current events will not be asked.

The study of civil government should include a careful analysis of the Constitution of the United States—the powers, organization, and functions of the federal government, the relations between the states and the federal government, and the general nature and extent of the powers reserved to the states.

For the guidance of both the teacher and the student, the following suggestions are made:

1. That careful attention should be paid to map studies.
2. That the topics of slavery and secession should not be emphasized at the expense of the study of territorial expansion and social and industrial growth.

3. That due attention should be paid to the policy of the United States in foreign affairs, tariff, banking, civil service, currency, trusts, conservation of natural resources, capital and labor, immigration, and other present day problems.

4. That familiarity with the lives and public services of great Americans should be especially encouraged.

### LATIN

The College has adopted the following definitions of requirements proposed by the Commission on College Entrance Requirements in Latin.

#### AMOUNT AND RANGE OF READING REQUIRED

The Latin reading required of candidates for admission to college, without regard to the prescription of particular authors and works, shall be not less *in amount* than Cæsar, *Gallic War*, I–IV; Cicero, the *Orations against Catiline*, for the *Manilian Law*, and for *Archias*; Vergil, *Æneid*, I–VI.

The amount of reading specified above shall be selected by the schools from the following authors and works: Cæsar (*Gallic Wars* and *Civil War*) and Nepos (*Lives*); Cicero (*Orations*, *Letters*, and *De Senectute*) and Sallust (*Catiline* and *Jugurthine War*); Vergil (*Bucolics*, *Georgics*, and *Æneid*) and Ovid (*Metamorphoses*, *Fasti*, and *Tristia*).

#### SCOPE OF THE EXAMINATION

Translation at sight. Candidates will be examined in translation at sight of both prose and verse. The vocabulary, constructions, and range of ideas of the passages set will be suited to the preparation secured by the reading indicated above.

Prescribed reading. Candidates will be examined also upon the following prescribed reading:

In 1923, 1924, and 1925. Cicero, the *Fourth Oration*

against *Catiline* and the *Oration for the Manilian Law*; Vergil, *Æneid*, I and IV; Ovid, *Metamorphoses*, Book III, 1-137 (Cadmus); IV, 55-166 (Pyramus and Thisbe), and 663-764 (Perseus and Andromeda); VI, 165-312 (Niobe); VIII, 183-235 (Dædalus and Icarus); X, 1-77 (Orpheus and Eurydice); XI, 85-145 (Midas).

Accompanying the different passages will be questions on subject-matter, literary and historical allusions, and prosody. Every paper in which passages from the prescribed reading are set for translation will contain also one or more passages for translation at sight; and candidates must deal satisfactorily with both these parts of the paper, or they will not be given credit for either part.

Grammar and Composition. The examinations in grammar and composition will demand thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the prose authors read in school, with ability to use this knowledge in writing simple Latin prose.

#### SUBJECTS FOR EXAMINATION, 1923-1925

NOTE.—No credit is given for 1 and 2 except in combination with 4 or 5.

1. Grammar.—The examination will presuppose the reading of the required amount of prose, including the prose works prescribed.

2. Elementary prose composition.—The examination will presuppose the reading of the required amount of prose, including the prose works prescribed.

4. Cicero, *Fourth Oration against Catiline* and the *Oration for the Manilian Law*; and sight translation of prose.

5. Vergil, *Æneid*, I and IV; Ovid, *Metamorphoses*, Book III, 1-137 (Cadmus); IV, 55-166 (Pyramus and Thisbe), and 663-764 (Perseus and Andromeda); VI, 165-312

(Niobe); VIII, 183-235 (Dædalus and Icarus); X, 1-77 (Orpheus and Eurydice); XI, 85-145 (Midas); and sight translation of poetry.

Candidates presenting themselves for the September entrance examinations in Latin 4 and 5 are required to bring statements from their instructors showing the amount of reading covered in these subjects.

### MATHEMATICS

The present definition of the requirements in Mathematics is in accordance with recommendations made in September, 1903, by a committee of the American Mathematical Society.

The requirements as defined by the College Entrance Examination Board in their Bulletins 107 and 108, adopted by the Board to go into effect in June, 1924, differ somewhat from the following. Credits secured by College Entrance Examination Board examinations, in accordance with their new plan, will be accepted in lieu of the work described below, and as soon as practicable the Amherst requirements will coincide with the College Entrance Examination Board recommendations.

#### ELEMENTARY MATHEMATICS

A. Algebra to quadratics and beyond.

A. 1. Algebra to quadratics.

The four fundamental operations for rational algebraic expressions. Factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions, and ratio and proportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square

root of polynomials and of numbers; exponents, including the fractional and the negative.

A. 2. Quadratics and beyond.

Quadratic equations, both numerical and literal; simple cases of equations with one or more unknown quantities, that can be solved by the methods of linear or quadratic equations; problems depending on quadratic equations; the binomial theorem for positive integral exponents; the formulas for the  $n$ th term and the sum of  $n$  terms of arithmetical and geometrical progressions, with applications.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, physics, and from commercial life. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected.

C. Plane geometry.

The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons and the measurement of the circle; the solution of numerous original exercises, including loci problems; applications to the mensuration of lines and plane surfaces.

ADVANCED MATHEMATICS

B. Advanced algebra.

Permutations and combinations, limited to simple cases; complex numbers, with graphical representation of sums and differences; determinants, chiefly of the second, third, and fourth orders, including the use of minors and the solution of linear equations; numerical equations of higher degree, and so much of the theory of equations, with graphical methods,

as is necessary for their treatment, including Descartes' rule of signs and Horner's method, but not Sturm's functions or multiple roots.

#### D. Solid geometry.

The usual theorems and constructions found in good textbooks, including the relations of planes and lines in space; the properties and measurement of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle; the solution of numerous original exercises, including loci problems; applications to the mensuration of surfaces and solids.

#### E. Plane trigonometry.

Definitions and relations of the six trigonometric functions as ratios; circular measurement of angles; proofs of principal formulas, in particular for the sine, cosine, and tangent of the sum and of the difference of two angles, of the double angle and the half angle, the product expressions for the sum or the difference of two sines, or two cosines, etc., the transformation of trigonometric expressions by means of these formulas; solutions of trigonometric equations of a simple character; theory and use of logarithms (without the introduction of work involving infinite series); the solution of right and oblique triangles and practical applications.

### MUSIC (Harmony)

The candidate should acquire: (1) the ability to harmonize in four vocal parts simple melodies of not fewer than eight measures, in soprano or in bass. The harmonization of such melodies requires a knowledge of triads and inversions, of diatonic seventh chords and their inversions, in major and minor modes, and of modulation, transient or complete, to nearly related keys; (2) a knowledge of analysis of ninth chords, of all non-harmonic tones, and of altered chords.

Systematic ear-training (as to interval, melody, and chord) is urgently recommended as part of the preparation

for this examination. A full knowledge of the rudiments of music, scales, intervals, and staff notation, is expected.

### PHYSICS

Candidates should pursue a course extending through one year, involving both class exercises and laboratory work. The class work should include careful study of the whole subject as presented in some good text-book of high school grade, and the student should perform not less than thirty-five experiments requiring careful measurements. The candidate will be examined in the principles of the subject, and his proficiency tested by problems such as those set by the College Entrance Examination Board.

### PHYSIOGRAPHY

Candidates should master Dyrer's *Physical Geography* or Davis' *Elementary Physical Geography*, with laboratory work and excursions for observations of land features. Notebook and laboratory records endorsed by the teacher must be submitted at the time of taking the examination.

### PHYSIOLOGY

The candidate should complete a course of recitation and laboratory work of not less than forty hours, including the study of the structure of the principal organs of the human body, with special attention to their working. The emphasis should be placed on function. An elementary knowledge of personal hygiene as the practical application of this science is required.

The following text-books are recommended: Hough and Sedgwick's *The Human Mechanism*, Martin's *The Human Body* (elementary course), Fitts' *Physiology and Hygiene*, Eddy's *Text-book in General Physiology and Anatomy*.

## SPANISH

The requirement in Spanish A is based upon the recommendations of a committee of the Modern Language Association.

## A. ELEMENTARY SPANISH

During the first year the work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the inflections of the regular and the more common irregular verbs, the inflection of nouns, adjectives, and pronouns, and the elementary rules of syntax; (3) abundant easy exercises, designed not only to fix in the memory the forms and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (4) the reading of about 100 pages of graduated texts, with constant practice in translating into Spanish easy variations of the sentences read (the teacher giving the English), and in reproducing from memory sentences previously read; (5) writing Spanish from dictation; (6) memorizing of Spanish passages of conversational prose and of simple verse.

Suitable texts for the first year are: a carefully graded reader for beginners: Juan Valera, *El pájaro verde*; Pérez Escrich, *Fortuna*; Altamirano, *La navidad en las montañas*.

During the second year the work should comprise: (1) the reading of about 200 pages of easy modern prose in the form of stories, plays, or historical or biographical sketches; (2) constant practice, as in the previous year, in translating into Spanish easy variations upon the texts read; (3) frequent abstracts, sometimes oral and sometimes written, of portions of the text already read; (4) continued study of the elements of grammar and syntax and the use of a composition book; (5) mastery of all but the rare irregular verb forms and of the simpler uses of the modes and tenses; (6) writing Spanish from dictation; (7) memorizing of Spanish passages of conversational prose and of simple verse.

Suitable texts for the second year are: A collection of short stories by different authors; a collection of brief comedies; a collection of easy lyrics (Spanish and Spanish-American) or of verse fables; a Spanish or Spanish-American historical reader; Alarcón, *El Capitán Veneno*; Carrión and Aza, *Zaragüeta*; Frontaura, *Las tiendas*; Quintana, *Vasco Núñez de Balboa*; Jorge Isaacs, *María*; Palacio Valdés, *José*; Mármol, *Amalia*.

#### B. INTERMEDIATE SPANISH

The work should comprise the reading of from 300 to 400 pages of Spanish of ordinary difficulty; constant practice in giving Spanish paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; the discussion in Spanish of the main facts of Spanish and Spanish-American geography, history, and customs, for the study of which the teacher will provide the material; the study of a grammar of moderate completeness; the use of a composition book; writing from dictation.

Suitable texts for the third year are: Taboada, *Cuentos alegres*; Isla's version of the *Gil Blas*; Selgas, *La mariposa blanca*; Pérez Galdós, *Doña Perfecta*; Palacio Valdés, *La Hermana San Sulpicio*; a collection of essays dealing with Spanish or Spanish-American life and customs; Moratín, *El sí de las niñas*; Larra, *Partir a tiempo*; plays of the Alvarez Quintero brothers; plays of Benavente.

## METHODS OF ADMISSION

A blank form of application for admission will be sent by the Secretary of the Faculty to anyone desiring it. This blank when properly filled out indicates the subjects which the candidate expects to present for admission and the manner in which these credits are to be secured.

Candidates for admission are urged to send their applications to the Secretary of the Faculty before the beginning of the last year of the preparatory course if possible in order that the plan of studies for this last year may be made in conformity with the requirements for admission to Amherst College. The filing of such an application for admission does not commit the applicant in any manner.

## EXAMINATIONS FOR ADMISSION

Examinations are held twice every year, in June and in September, the June examinations being those given by the College Entrance Examination Board. On recommendation by the principal of the school which candidates have attended they are allowed to take examinations in any of the subjects required for admission.

## PRELIMINARY EXAMINATIONS

The candidate may, at his option, take his examinations in two parts, preliminary and final, thus dividing his subjects between two years. Candidates are advised to reserve for their final examinations the following subjects: Greek C and F, Latin 5, Mathematics A or C, and English 2.

## COLLEGE ENTRANCE EXAMINATION BOARD

*Examinations of 1925*

In June, 1925, the admission examinations of this College will be the examinations of the College Entrance Examina-

tion Board of which this College is a member. The examinations will be held during the week June 15-20, 1925.

The application for examination should be addressed to the College Entrance Examination Board, 431 West 117 Street, New York, N. Y. It should be made upon a blank form to be obtained from the Secretary of the College Entrance Examination Board.

If the application be received sufficiently early the examination fee will be \$9.00 for candidates examined in the United States and Canada and \$20.00 for candidates examined elsewhere. The fee, which should accompany the application, should be remitted by postal order, express order, or draft on New York to the order of the College Entrance Examination Board.

Applications and fees of candidates who wish to be examined outside of the United States and Canada should reach the Secretary of the Board at least six weeks in advance of the first day of the examinations, that is, on or before May 4, 1925.

Applications and fees of candidates who wish to be examined in the United States at points west of the Mississippi River or in Canada should be received at least four weeks in advance of the first day of the examinations, that is, on or before May 18, 1925.

Applications and fees of candidates who wish to be examined in the United States at points east of the Mississippi River or on the Mississippi River should be received at least three weeks in advance of the first day of the examinations, that is, on or before Monday, May 25, 1925.

When the candidate has failed to obtain the required blank form of application for examination the usual examination fee will be accepted if the fee arrives not later than the specified date accompanied by a memorandum containing the name and address of the candidate, the exact exami-

nation center selected, and a list of all the subjects in which he expects to take the Board examinations.

Applications received later than the dates named will be accepted when it is possible to arrange for the examination of the candidates concerned, but only upon the payment of an additional fee.

A list of the places at which examinations are to be held in June, 1925, will be published about March 1. Requests that the examinations be held at particular points, to receive proper consideration, should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1. The designation of the center to which the candidate will go for examination is regarded as an indispensable part of the candidate's application for examination.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually by the College Entrance Examination Board. The edition published December 1, 1923, was designated as Document No. 111. A new edition which will be designated as Document No. 114 will appear December 1, 1924. Upon request a single copy of this document will be sent to any teacher without charge. In general a charge of twenty cents, which may be remitted in postage, will be made.

The marks given by the Board to the papers of the candidate will be accepted by Amherst College upon the same terms as the results of the examinations held by the College in September.

Examination papers are not sent out from the College to preparatory schools.

#### EXAMINATIONS IN SEPTEMBER

The September examinations are given only by the College, at Amherst. These examinations are held in Room 5,

Walker Hall, on Wednesday, Thursday, Friday, Saturday, Monday, and Tuesday, September 16-22, 1925.

For the examinations in September a fee of five dollars is charged, payable to the Treasurer of the College before the first examination is taken. Credit will be given for this amount on the first bill for tuition due at the beginning of the College year.

The order of examinations in September is as follows:

#### FIRST DAY—SEPT. 16

8.30-10.30 A.M.	Latin 4

## ADMISSION BY CERTIFICATE

From certain preparatory schools of approved standing certificates of fitness to enter College are received in place of entrance examinations; but such certificates must be filled out in detail in accordance with forms printed by the College and furnished to principals of such schools upon application to the Secretary of the Faculty.

In order to meet the full requirements in these subjects, certificates in Greek and Latin must specify that the candidate has pursued a systematic course of study, not less than five hours a week, during three school years for Greek and four for Latin. In Mathematics A and C no certificate will be accepted for work that has not been pursued or reviewed within the two years preceding the date of the student's admission to College. Certificates will be accepted in modern languages provided they have been pursued during the year preceding the date of admission to College. In the case of candidates who present more than one modern language, certificates are accepted provided at least one of these languages has been pursued during the year preceding the date of admission to College. Certificates for advanced mathematics will be accepted with the understanding that in such cases the student is required to take a year of mathematics in College. In general the amount of work required

in each subject is indicated in the detailed description already given under subjects for examinations.

Certificates will be received from the schools which have been approved by the New England College Entrance Certificate Board, the North-Central Association of Colleges and Secondary Schools, or the Southern Commission on Accredited Schools. Principals of schools in New England who desire the certificate privilege should address the Secretary of the Board, Professor Frank W. Nicolson, Middletown, Conn.

Certificates are received from other schools which have been approved by this College. In determining the eligibility of these schools to the certificate privilege the College follows in general the method of the New England College Entrance Certificate Board. From schools which for four consecutive years have sent no students to this College the certificate privilege is withdrawn unless exception is made by the Committee on Admission.

#### ADMISSION BY CERTIFICATE OF EXAMINATIONS

The pass-cards, certificates, and diplomas given by the Regents of the University of the State of New York are accepted in place of entrance examinations to the extent to which they cover the requirements of Amherst College, stated on page 40 ff.

#### ADMISSION FROM OTHER COLLEGES OR INSTITUTIONS OF COLLEGIATE RANK

A candidate for admission to advanced standing from an institution of collegiate rank may receive credit without examination for work completed at such an institution subject to the following requirements:

1. He must present a catalogue of the institution from which he comes, together with an official certificate showing (a) his entrance credits at that institution, (b) his college

record including grade of scholarship in each subject taken, (c) honorable dismissal.

2. He must have completed creditably the work of at least one year in an institution of collegiate rank.

3. He must satisfy the entrance requirements of Amherst College, using his advanced credits for this purpose if necessary.

4. Credit is allowed only for work equivalent to courses in Amherst College.

5. Credit for such courses is regarded as provisional at the time of the applicant's admission to college and will not be considered as final, nor will the applicant be given final enrollment, until he has satisfactorily completed at least one year's work in Amherst College.

6. Candidates will be accepted only at the beginning of the year and when accepted will be regarded as provisionally enrolled for that year.

7. The applicant must indicate at the time of his admission all his claims for credit.

All applications for admission to advanced standing should be made to the Secretary of the Faculty.

#### ANTICIPATION OF COLLEGE COURSES BY EXAMINATION

Students who have completed in their preparatory schools studies corresponding to courses given in Amherst College may obtain credit for such courses by examination in accordance with the following rules:

1. The proposed credit must be in excess of the entrance requirements.

2. It must be presented at or before the time of admission to college.

3. Advanced credit in French, German, and mathematics may be obtained by passing examinations of the College Entrance Examination Board in June.

4. Special examinations for obtaining advanced credit will be given upon application and payment of the required special examination fee at the time of the regular entrance examinations in September.

5. All applications for examinations for advanced credit must be filed with the Secretary of the Faculty.

6. Credit thus obtained may be used:

a. In anticipation of required courses.

b. To count toward graduation in three years. (See page 73.)

Such credit may not be used to reduce the number of courses in any year nor as a substitute for a delinquency subsequently incurred.

7. Students will not be allowed advanced credit by certificate or examination for work done privately or by correspondence.

*All correspondence concerning admission should be addressed to the Secretary of the Faculty.*

# CURRICULUM

## GENERAL REQUIREMENTS

### DEGREE OF BACHELOR OF ARTS

All candidates for the Degree of Bachelor of Arts must complete twenty year courses which shall include: one year of mathematics; one year of English and Biblical Literature; one year (two years if elementary) of Greek or one year of Latin; two years of science in the group astronomy, biology, chemistry, geology, physics; one year in the group English, foreign language, music; one year in the group history, philosophy; and in addition to the twenty courses the required work in the group public speaking, public reading, chorus or orchestra, and in physical education.

Courses of study are by years, and no course of less than a year in any subject may be counted toward a degree unless approved in advance by the Administration Committee.

In order to receive a degree a candidate must have no deficiencies in the work of any year, must have a reading knowledge of German or a Romance language (French, Italian, or Spanish), and must attain an average grade of seventy per cent for his entire course.

All courses are assigned three hours each week except (1) the year of required mathematics, the first year of Greek for beginners, the elementary course in Vergil, and the regular Freshman courses in Greek and Latin, which are four-hour courses for half the year; (2) the year of required English which is a two-hour course; and (3) the year of Biblical Literature which is a one-hour course.

Every candidate for a degree must complete two majors during his college course.

A major consists of three year courses in the same subject pursued either (1) during three consecutive years, or (2) during the Junior and Senior years. A major must be completed in the Senior year, and therefore, it may not be begun until after the Freshman year.

All students are required to take five courses in each year, and no student is allowed to take more than six courses. (This does not apply to public speaking, public reading, chorus or orchestra.)

Not more than two courses taken simultaneously in one subject or under one instructor may count towards a degree.

No student may elect more than four year courses in any subject unless he is permitted to do so by the department and the Administration Committee.

No student is allowed to elect more than two seminar courses.

Credits for subjects previously taken may not be used to reduce the number of courses required in any year nor as substitutes for delinquencies subsequently incurred.

No student is allowed to remain in college over two years with an entrance condition.

Early in his college course the student should note the prerequisites of the various departments in order that he may not be prevented from making the elections which he desires.

### GRADUATION IN THREE YEARS

A student who has at entrance, by examination, credit for two year courses may take six courses each year in addition to the required work in the group public speaking, public reading, chorus or orchestra, and in physical education, in order to obtain a degree in three years. Written notice of intention to complete the course in three years must be given to the Secretary of the Faculty at the beginning of the first year.

## STUDIES OF FRESHMAN YEAR

1. English (2 hours); Biblical Literature (1 hour)
2. Mathematics
3. Ancient language <sup>a</sup>
- 4, 5. Two subjects from the following groups, but not more than one subject from any one group:
  - A. Foreign language
  - B. Social and economic institutions
  - C. Chemistry, physics
6. Public speaking, public reading, chorus or orchestra <sup>b</sup>
7. Physical education

## STUDIES OF SOPHOMORE YEAR

One subject must be chosen from each of the groups 1, 2, 3, but not more than two subjects may be chosen from any one group.

1. English, foreign language<sup>a</sup>, music
2. Biology, chemistry, mathematics, physics
3. History, philosophy
4. Elective
5. Elective
6. Public speaking, public reading, chorus or orchestra <sup>b</sup>
7. Physical education

---

<sup>a</sup> Every candidate for a degree must take an ancient language in the Freshman year. If the subject chosen is Greek 1 the student must elect Greek 2 in his Sophomore year. In other cases only one year of ancient language is required of those who have presented for admission either four years of Latin or three years of Greek.

<sup>b</sup> Members of the Freshman and Sophomore classes are required to take one of the following subjects: (1) public speaking, including argumentation; (2) public reading, including the reading of plays; (3) chorus or orchestra. These courses run through the year and require attendance and study approximately equal in amount to one-half that of a regular three-hour course.

<sup>c</sup> If the reading requirement of a modern language has not been satisfied during Freshman year a modern language must be elected in Sophomore year.

## STUDIES OF JUNIOR YEAR

1. Major 1
2. Major 2
3. Elective
4. Elective
5. Elective
6. Physical education

## STUDIES OF SENIOR YEAR

1. Major 1
2. Major 2
3. Elective
4. Elective
5. Elective

## COURSE WITHOUT DEGREE

Mature students who desire to receive instruction in a course of subjects not leading to a degree and who have presented satisfactory evidence of special fitness for such work are admitted as special students. At the time of their application for admission such students should present to the Secretary of the Faculty a plan of the course of study desired. A course of this kind is not open to a student who has just finished his preparatory course with insufficient credits to admit him as a regular candidate for a degree.

Students who are pursuing studies not leading to a degree are required to take as many courses as are taken by regular students.

Special students are not eligible to participate in inter-collegiate games or public exhibitions.

## DEGREE OF MASTER OF ARTS

Every candidate for the Degree of Master of Arts shall make application to the Secretary of the Faculty for permission to enter upon a course of study for the degree. This application must be made not later than one week before the first day of the college year.

A blank form of application may be obtained from the Secretary of the Faculty. On this blank the applicant shall indicate the department in which he wishes to pursue his major course of study, and return his application to the Secretary of the Faculty. If this preliminary application is accepted by the Committee on Instruction, the applicant will be notified of that fact, and also of the name of the professor whom he must consult as to the selection of all his courses, and under whose general direction his course will be pursued.

The applicant shall select four courses, two in the department in his major subject, and two others, known as minors, in other departments unless exception be made by the Committee on Instruction. The standard of work for each candidate is a minimum grade of 80 per cent in each of his courses. The amount of work done shall be acceptable to the teachers concerned and to the Committee on Instruction. Special examinations may be given at any time at the will of the teacher. A final examination in each course is held in the case of every candidate for the Master's degree, and this final examination is at least partly oral. The oral part of the candidate's examination takes place at a date arranged to suit the convenience of the candidate and all his teachers, and the examination covers the whole work done for the degree. It is open to all members of the faculty, and they are allowed to question the candidate as they desire.

From every candidate there is also required a thesis on such subject and under such conditions as are set by the professor under whose direction the work is being done, and this thesis must be accepted and approved by him before the candidate is admitted to the final examination.

Candidates must spend one year in residence at Amherst and are expected to appear in person at the conferring of the degree.

Communications relative to the degree should be addressed to the Secretary of the Faculty.

### COURSES OF INSTRUCTION IN DETAIL

Each of the following courses extends throughout the year.

A tabulated statement of electives by years will be found on page 104.

Unless the contrary is stated, members of any class are permitted to elect courses which are open to the members of a lower class.

### ASTRONOMY

#### 1. Introduction to astronomy.

*Elective for Sophomores.*

Mon., Fri., 8.35, Tu., 2.00, Geology Laboratory.

PROFESSOR GREEN.

#### 2. Practical astronomy, navigation and astrophysics.

*Elective, with the consent of the instructor, for Juniors.*

Astronomy I requisite.

Three hours per week with the understanding that two hours of observational work or computing may be substituted at any time for one hour of class-room work.

Mon., Fri., 10.30, Tu., 8.35, Chemistry Laboratory.

PROFESSOR GREEN.

### BIBLICAL LITERATURE

1. Appreciation of the Bible. This course aims to give an appreciation of the methods and results of modern Bible study, including both the Old Testament and the New.

*Required course for Freshmen.*

A. Tu., 9.30, Walker 8.

B. Thu., 9.30, Walker 8.

PROFESSOR GILKEY.

2. The Development of Modern Christianity. This course aims to give an appreciation of the development of

Hebrew religion and its culmination in Jesus, an understanding of the main events in Church history, and an acquaintance with the problems and the teachings of modern Christianity.

*Elective for Juniors.*

Tu. Thu., 10.30, Walker 8.

PROFESSOR GILKEY.

Consultation hours. Professor Gilkey meets the men enrolled in either of these courses, for consultation, in Walker 13 every Tuesday and Thursday from 11.30 to 12.15.

## BIOLOGY

NOTE.—Students intending to enter a medical school should elect courses 1 and 4.

1. General biology. An introduction, especially arranged to serve as part of a program of liberal study.

*Elective for Sophomores.*

Chemistry 1 or Physics 1 recommended.

Three class meetings and two hours of laboratory work per week.

Wed., Sat., 9.30, Thu., 3.00, Biology Laboratory.

PROFESSOR PLOUGH.

Fee, \$6.00.

3. General structure, physiology, and taxonomy of the flowering plants.

*Elective for Sophomores.*

Three lectures and two laboratory hours per week until spring recess, after which field work will be substituted for the laboratory work and a part of the recitation appointments.

Thu., Fri., Sat., 11.30, Appleton.

PROFESSOR GOODALE.

Fee, \$10.00.

4. Comparative anatomy and embryology of vertebrates.

*Elective for Juniors.*

Biology 1 requisite.

Two class meetings and three hours of laboratory work per week.

Tu., Wed., 11.30, Geology Laboratory.

PROFESSOR GORDON

Fee, \$10.00.

5. Microbiology. A study of the bacteria and other simple organisms. The course covers the standard laboratory methods, and in addition such general problems as the place of micro-organisms in nature, infection and immunity, sanitation and public health.

*Elective for Juniors.*

This course will not be given for less than five students.

Biology 1 and Chemistry 1 requisite.

Two lectures and four hours of laboratory work per week.

Thu., Fri., 11.30, Biology Laboratory.

PROFESSOR PLOUGH

Fee \$10.00.

6. Evolution of the plant kingdom.

*Elective for Sophomores.*

Three lectures and two laboratory hours per week.

Tu., Thu., 9.30, Fri., 3.00, Appleton.

PROFESSOR GOODALE

Fee \$10.00

8. Biological problems in relation to genetics.

*Elective, with the consent of the instructor, for Seniors.*

Biology 1 and a second course in any one of the sciences requisite.

Thu., 7.30 P.M., Biology Laboratory.

PROFESSOR PLOUGH.

Note.—See also Geology 3 which may be counted as a course in biology instead of geology.

## CHEMISTRY

NOTE.—Students preparing for medical school should take both Chemistry 2 and Chemistry 4.

1. General chemistry.

*Elective for Freshmen.*

Three hours class-room and two hours laboratory work per week.

Wed., Sat., 9.30, Thu., 3.00, Chemistry Laboratory.

PROFESSOR HOPKINS.

Fee, \$10.00

2. Inorganic chemistry. Class work; introduction to theoretical chemistry with especial emphasis on the kinetic theory, theory of solutions, and applications of chemical equilibrium.

Laboratory work; inorganic preparations (first term); qualitative analysis (second and third terms).

*Elective for Sophomores.*

Chemistry I requisite.

Three hours class-room and three hours laboratory work per week.

Mon., Fri., 9.30, Tu., 3.00, Chemistry Laboratory.

PROFESSOR DOUGHTY.

Fee, \$20.00

3. Quantitative analysis, laboratory work in gravimetric, volumetric and electrometric methods of analysis, including determination of hydrogen ion concentration. Conferences and assigned reading.

*Elective for Juniors.*

Chemistry I, 2 requisite.

Six hours laboratory work per week.

Mon., Wed., 2.00, Chemistry Laboratory.

MR. BEEBE.

Fee, \$20.00

4. Organic chemistry; an introduction to the chemistry of the compounds of carbon. General theory of organic chemistry and preparation of typical compounds.

*Elective for Sophomores.*

Chemistry I requisite. A Sophomore may not take both Chemistry 2 and Chemistry 4.

Three hours class-room and three hours laboratory work per week.

Mon., Tu., Wed., 10.30, Chemistry Laboratory.

PROFESSOR DOUGHTY.

Fee, \$20.00

5. (*Omitted 1924-1925*). Class and laboratory work with reference to special chapters of physical chemistry including

colloid chemistry and catalysis; may be taken with consent of the instructor.

*Elective for Juniors.*

Chemistry 1, 2 requisite.

Two hours class-room and four hours laboratory work per week.

Mr. Beebe.

Fee, \$10.00.

## ECONOMICS

1. Principles of economics. The present industrial system with special reference to American conditions. A study of the development of the main features of present industrial society, value and distribution and a number of modern social problems.

*Elective for Juniors.*

A. Mon., Tu., Wed., 2.00, Chapel 5.

B. Mon., Tu., 8.35, Thu., 9.30, Chapel 4.

C. Wed., Sat., 9.30, Fri., 3.00, Chapel 5.

PROFESSOR DOUGLAS and MR. TAYLOR.

2. Principles of economics. A study of current problems in their relation to economic principles. Some of the current problems studied are: large scale production; scientific management; competition and monopoly; wages and trade unions; rent, interest, and profits; value, money, banking, and foreign exchange; poverty and programs of reform; taxation and public credit.

*Elective for Juniors.*

Thu., Fri., Sat., 11.30, Chapel 5.

PROFESSOR CROOK.

This course is primarily for those who intend to take only one course in economics. Credit will not be given for both 1 and 2.

3. Population. Growth and density of population; migration; race and nationality and their relations to economic conditions and the growth and diffusion of institutions; the

rôle of heredity vs. education and environmental improvement.

*Elective for Seniors.*

One course in economics requisite.

Thu., Fri., Sat., 10.30, Chapel 4.

PROFESSOR HANKINS.

4. (a) Labor in industrial society. A study of the rise of the industrial labor class, the wages systems, the conditions of employment, the organization of employers and employes, the establishment of labor standards, and other aspects of the problem of the place of labor in industry and society.

(b) Introduction to statistics. The topics considered include the general characteristics of the statistical method, the definition of statistical units, accuracy and approximation, the nature and causes of error, classification, frequency distributions and frequency curves, the several forms of average and their appropriate uses, rates and percentages, index numbers and business barometers, the tabular and graphic presentation of statistical results, and the collection of original statistical material. The methods discussed in the lectures are applied and tested in laboratory exercises and in the solution of assigned problems.

*Elective for Seniors.*

One course in economics requisite.

Mon., Tu., Wed., 10.30, Chapel 5.

PROFESSOR DOUGLAS.

5. Finance. A study of the nature and functions of money and banking and corporate finance; public finance with emphasis upon problems of taxation.

*Elective for Seniors.*

One course in economics requisite.

Mon., Fri., 9.30, Tu., 3.00, Chapel 5.

PROFESSOR CROOK.

6. Studies in social evolution. A consideration of forms of social organization and institutions in their evolutionary aspects, with special reference to the primary factors in social change. PROFESSOR NEWLIN.

8. Modern philosophy. A study of some of the work of men whose influence is considerable at the present time, such as Bergson, Russell, Vaihinger, Santayana, Dewey. Each student will have the opportunity to develop an independent program for his own work. The course may include some study of the theory of relativity and its influence on philosophy. The class periods will be devoted to reports and discussions.

*Elective for Juniors.*

One course in philosophy requisite.

The number of students permitted to enter this course will be limited.

These students will be selected by the instructor from those who elect the course.

Thu., 7.30 P.M., Library.

PROFESSOR TOLL.

## PHYSICS

1. General Physics: Mechanics, sound, heat, electricity, magnetism and light. It is the aim of this course to lay a good foundation for further study in both pure and applied physics. It is desired that out of the year's work may come a better understanding of the scientific method and spirit of

modern physics. The analytical method of presentation will be stressed.

*Elective for Freshmen.*

Trigonometry, requisite.

Three hours class-room work and one laboratory period per week.

Thu., Fri., Sat., 10.30, Physics Laboratory.

PROFESSOR WILLIAMS.

Fee, \$9.00.

The following courses are open to students who are credited with Physics 1. Physics 2 (a) may be followed by 3 (b) and 3 (c) to make a year course if preferred.

2. (a) Electricity, magnetism, and electrical measurements; (b) heat and elementary thermodynamics; (c) electric discharge through gases, radioactivity and electron theory of matter.

NOTE.—In the above notations a, b, c refer to the first, second and third terms respectively.

Three hours class-room and two hours laboratory work per week.

Thu., Fri., Sat., 11.30, Physics Laboratory.

PROFESSOR J. O. THOMPSON.

Fee, \$10.00.

3. (a) Light, diffraction, polarization and double refraction in crystals; (b) theory of electric machinery—direct current; (c) theory of alternating currents of electricity, and applications.

NOTE.—In the above notations a, b, c refer to the first, second and third terms respectively.

Three hours class-room and two hours laboratory work per week.

Fee, \$10.00.

Tu., Wed., 10.30, Fri., 3.00, Physics Laboratory.

PROFESSOR WILLIAMS.

4. Research in Physics. Problems in research will be assigned to those taking this course. Primarily a laboratory course. Certain hours of the laboratory periods will be taken for discussion of the work.

Physics 1, and 2 or 3, and Mathematics 2, requisite.

Three laboratory periods per week.

PROFESSOR WILLIAMS.

### POLITICAL SCIENCE

#### 1. American political institutions.

*Elective for Juniors.*

## LECTURESHIPS

## THE HENRY WARD BEECHER LECTURESHIP

This lectureship was founded by Frank L. Babbott, M.A., of the class of 1878, in honor of Henry Ward Beecher, of the Class of 1834. The incumbent is appointed annually by the Faculty for supplementary lectures in the Departments of History and the Political, Social, and Economic Sciences.

## THE CLYDE FITCH FUND

A fund of twenty thousand dollars was established by Captain and Mrs. W. G. Fitch of New York in memory of their son, Clyde Fitch, of the Class of 1886. The income of this fund is to be used for the furtherance of the study of English literature and dramatic art and literature. The whole or part of this income is usually devoted to the remuneration of an eminent lecturer, who may also take a part in the regular instruction of the College.

## THE JOHN WOODRUFF SIMPSON LECTURESHIP

A fund of \$150,000 was established in memory of John Woodruff Simpson, of the Class of 1871, by his wife and daughter. The income is to be used for fellowships (see page 122) and "to secure from time to time, from England, France or elsewhere, scholars for the purpose of delivering lectures or courses of instruction at Amherst College."

## CLASSES FOR WORKERS

The College is coöperating with the Central Labor Union of Holyoke in carrying on classes for workers in that city. All incidental expenses of the classes are paid by the Central Labor Union, while instruction is furnished by the College. The purpose of the courses of study is to share with adult working men such advantages as the College may be able to afford, and to receive from the members of the classes the stimulation which is always given by men who are in close contact with the facts of industrial life. The following class has been organized for the year 1924-1925 in Holyoke:

*Labor Problems in Modern Society.* A careful study of the problems which the workers are facing today in industry. Among the topics treated are: the evolution of a wage-earning class; the distribution of wealth and income; the cost of living and the wages of labor; recent movements of wages; the risks of the worker, including accidents, ill health, old age and unemployment; the history of the American labor movement; union policies, consumers' coöperation; employers' associations and the shop committee; methods of wage payment and profit sharing; protective legislation; organized labor and the courts; methods of industrial peace and proposals for social reconstruction.

# ADMINISTRATION

## TERMS AND VACATIONS

The academic year includes thirty-six weeks of term time, divided into the autumn, winter, and spring terms. There is a Christmas Recess of sixteen days, a Spring Recess of eight days, and a Summer Vacation of thirteen weeks. Commencement Day is the Wednesday before the last Wednesday in June.

## HONOR SYSTEM

The Honor System was established in Amherst seventeen years ago. Its purpose was to replace the former rigid surveillance of examinations with absolute freedom from proctor vigilance, in the firm belief that college men are able to understand and appreciate such a system of honor. The system proved such a marked success that in 1916 its scope was extended so as to include not only examinations but also all curriculum work and the proper employment of the privileges of the library. Violations of the Honor Constitution are dealt with by an Honor System committee, which makes appropriate recommendations to the faculty in accordance therewith. It is understood that a man who enters Amherst, by doing so, implicitly accepts the Honor System as an institution of the College.

## ATTENDANCE AT COLLEGE EXERCISES

*The officer in general charge of matters concerning attendance on college exercises is the Dean of the College.*

Attendance at class exercises is administered subject to the general regulation that a student is allowed in every course a number of absences which may not exceed one-tenth of the number of exercises in that course.

The following rules apply in case a student exceeds this allowance:

For the first unexcused absence in any course a reduction of five per cent is made in the final grade for the year in that course; for a second unexcused absence in a subsequent term in the same course an additional reduction of three per cent is made; and for a third unexcused absence in a still subsequent term in the same course a further reduction of two per cent is made. For a second unexcused absence in any one term the student is debarred from the course for the remainder of the year.

All students are required to be present at the chapel exercises conducted by the President or other members of the Faculty every week-day morning at a quarter past eight o'clock in Johnson Chapel. At the Sunday service, held every Sunday in term time at a quarter before eleven o'clock in the College Church, all students not excused to attend elsewhere are required to be present. Absences from chapel exercises are allowed upon an average of one a week for each term; from the Sunday services, three absences are allowed each term. Any student, on application to the Dean, may be excused from attending services at the College Church, in order to attend church service elsewhere with the denomination of his choice. If the student is under twenty-one years of age, his application must be accompanied by a written request from his parent or guardian.

#### HEALTH AND PHYSICAL DEVELOPMENT

*The officer having general supervision of student health and physical development is the College Physician.*

The Department of Hygiene and Physical Education is under the charge of the College Physician, who keeps himself acquainted with the health of the students. Each student soon after he enters College, and twice thereafter

during his course, if he so desires, is given a careful physical examination and advised how to maintain his health and increase his physical efficiency.

Three hours a week of physical exercise are required of the Freshman, Sophomore, and Junior Classes until the spring recess. During the autumn the prescribed work is taken outdoors on Hitchcock field.

Instruction is given in swimming. Every student who on entering College cannot swim is required to learn during the first year, and before the end of Sophomore year to pass the college requirement in swimming, i.e. 200 yards.

The results of this system of prescribed physical training, as shown by statistics systematically kept for more than sixty years, are eminently satisfactory.

An annual inspection is made of all fraternity houses with respect to their sanitary condition and safety in case of fire.

The College has an infirmary (see p. 140) with fourteen beds. It is in charge of the College Physician in all matters except treatment, for which any student is at liberty to employ a physician of his own choice. It contains an operating room for emergency surgical cases, and an isolation ward for treatment of infectious diseases. The matron, a graduate nurse, is ready at all hours during term time to relieve ill or disabled students, and to care for them pending any arrangements for special treatment.

Every case of illness, whether the student goes to the infirmary or not, must be immediately reported to the College Physician.

#### SCHEDULES, RECORDS, AND REPORTS

*The officer in charge of records and reports is the Recorder of the College.*

For the convenience of members of the College there is

provided a printed schedule of all class exercises, a synopsis of courses for use when the election of studies is being made, and a set of rules and requirements that relate to the internal life of the College. These, together with copies of the annual catalogue, may be obtained at the Recorder's office.

Every student, upon admission to College, is given an Undergraduate Course Book in which is kept a record of his work in College. This course book is returned to the Recorder three times a year for additional records and verification.

Reports of standing are sent to parents or guardians during the summer vacation, after the records for the preceding academic year have been completed. Rank in each subject is reported as follows:

A, 90-100 per cent; B, 80-89 per cent; C, 70-79 per cent; D, 60-69 per cent; E, 50-59 per cent; F, below 50 per cent. The passing grade in all courses is 60 per cent, and an average grade in all courses of at least 70 per cent is required for a degree.

The average grade for each year and the general average for all years are reported on the percentage basis.

#### EXPENSES

*All communications concerning tuition, fees, and rental of rooms should be made to the Treasurer of the College.*

#### TUITION

The charge for tuition, including the use of the library and gymnasium, is two hundred dollars for the year, payable in two instalments, one of one hundred and fifteen dollars at the opening of the College in September, and one of eighty-five dollars on or before February first.

Every member of the Senior class is required to pay

a graduation fee of six dollars on or before the first of February.

The tuition for candidates for the degree of Master of Arts is at the rate of fifty dollars for each year course.

### LABORATORY FEES

Yearly fees are charged in connection with laboratory courses in biology, chemistry, and physics as follows:

Biology 1	\$6.00
Biology 3	10.00
Biology 4	10.00
Biology 5	10.00
Biology 6	10.00
Chemistry 1	10.00
Chemistry 2	20.00
Chemistry 3	20.00
Chemistry 4	20.00
Chemistry 5	10.00
Physics 1	9.00
Physics 2	10.00
Physics 3	10.00

These fees must be paid after the classes have been organized. Dues for breakage must be paid at the close of each term.

### ROOMS AND BOARD

The dormitories of the College accommodate about two hundred students, and the fraternity houses about two hundred and fifty.

The arrangement of rooms in the dormitories is such that they may be rented singly or in suites consisting of a study and either one or two bedrooms. All rooms are unfurnished. They are heated with steam and lighted with electricity, and most of them are provided with open fireplaces. The floors are hardwood.

Plans showing the arrangement of rooms in the various dormitories, together with a detailed statement of prices, may be obtained from the Treasurer of the College.

A student who is occupying a dormitory room is allowed until April nineteenth to reëngage it for the succeeding year. Beginning with April twenty-first, application will be received from any present occupant of a dormitory room for any dormitory room. Beginning May first, members of the College not now occupying dormitory rooms may apply in the following order: members of the incoming Senior class, May first; members of the incoming Junior class, May second; members of the incoming Sophomore class, May third. Beginning May fifth, rooms will be rented as called for or they may be reserved for incoming Freshmen. Application for dormitory rooms should be made by incoming Freshmen as early in the year as possible, since assignment is made in order of application.

A payment of ten dollars is required when a room is engaged, this amount being credited on the account when the first payment is made. The balance of one-half of the yearly rental is payable at the beginning of the college year and the second half on or before February first.

Dormitory rooms may be rented only for the entire academic year even in cases of withdrawal from College. Applicants who are rejected at the June examinations will be released from their contracts, and deposits made to secure rooms will be refunded on written request to the Treasurer before July thirtieth. After the June examinations all applicants who engage rooms will be held responsible for the year's rental.

Dormitory rooms may be occupied on the Monday of the week in which the college year opens.

The prices charged for rooms include heat, water, and care by janitors. Electricity used in the rooms is paid for

by the occupants at the close of each term. The range of prices for the current year is as follows:

Single rooms from \$60 to \$95 a year.

Study and one bedroom from \$90 to \$250 a year.

Study and two bedrooms from \$260 to \$300 a year.

Rooms may also be rented in private houses.

Board is furnished at various places in the town at prices which range from nine dollars to ten dollars a week.

### SUMMARY

The following table shows three scales of annual expenditures, not including clothing, vacation expenses, laboratory charges, membership in fraternities and other student organizations, athletic tax, and incidentals:

Tuition . . . . .	\$200.00	\$200.00	\$200.00
Room (one-half) . . . . .	45.00	77.50	150.00
Furniture (annual average) . . . . .	10.00	20.00	30.00
Board thirty-six weeks . . . . .	324.00	342.00	360.00
Fuel and light . . . . .	10.00	15.00	25.00
	<hr/>	<hr/>	<hr/>
	\$589.00	\$654.50	\$765.00

For the use of the College Infirmary (see p. 140), each patient is charged a sum sufficient to defray necessary expenses. Provision is made for a limited number of patients by funds given in aid of needy and worthy students, one in memory of Rev. Edmund K. Alden, D.D., of the Class of 1844, and one in memory of Rev. Thomas P. Field, D.D., of the Class of 1834.

# HONORS

## COMMENCEMENT EXERCISES

From the 15 Seniors who have attained the highest general standing at the end of the second term of Senior year, four are selected upon the basis of literary and oratorical merit to deliver orations on Commencement Day. The Bond Prize of one hundred dollars is awarded to the speaker who delivers the best oration.

### THE BOND FIFTEEN FOR 1924

John Reginald Bates	Richard Francis Lemal
Frederick Stuart Crawford, Jr.	Talcott Parsons
Addison Thayer Cutler	Elbridge Sibley
Samuel Shattuck Ellis	Maurice Benjamin Strauss
George Banks Funnell	Albert Lyman Warner
Frederic Fletcher Holmes	Winthrop Whitaker
Richard Shaffer Kyle	John Arven Woodbridge
Lloyd Denning Yates	

The Bond Prize was awarded in 1924 to John Arven Woodbridge.

### THE PHI BETA KAPPA SOCIETY

Those who, at the end of the second term of Junior year, have attained a grade of 88 per cent are entitled to nomination by the Faculty to membership in the Phi Beta Kappa Society; such nomination is open also to those who, at the end of the second term of the Senior year, have attained a grade of 85 per cent.

## FINAL HONORS AT GRADUATION

Final honors in a single department of study are awarded for special work involving collateral reading or investigation under the following conditions:

(1) The candidate must complete at least two advanced year courses in connection with one of which special work of collateral reading or investigation must be done. No student may be a candidate in more than one department except by vote of the Administration Committee.

(2) The candidates must have at graduation an average standing of not less than 80 per cent in all studies of the college course; an average standing of not less than 75 per cent in each study of Senior year, and of 90 per cent in the last year of study in the department in which the honor is sought.

(3) The proficiency of the candidate is tested by special examination or by thesis, or by both, at the end of Senior year.

(4) Application should be made at the Recorder's office on or before November first of the Senior year.

One unit is added to the total average rank of a student who takes final honors. If honors are taken in more than one department only one unit is added.

The names of successful candidates are announced at Commencement and in the annual catalogue.

## FINAL HONORS, 1923-1924

John Reginald Bates	<i>Chemistry</i>
Frederick Stuart Crawford, Jr.	<i>Greek</i>
Elbridge Sibley	<i>Political Science</i>
Maurice Benjamin Strauss	<i>Biology</i>

## HONORABLE MENTION

Honorable mention is awarded in the various departments under the following conditions:

(1) There must be a standing of not less than 75 per cent in every department for the year.

(2) An average of 93 per cent must be maintained for a full year's course in the department in which honorable mention is sought.

The names of those who have honorable mention are announced in the annual catalogue.

## FELLOWSHIPS

### THE ROSWELL DWIGHT HITCHCOCK MEMORIAL FELLOWSHIP

Of two hundred and fifty dollars, established through the agency of the Alpha Delta Phi Fraternity, is awarded annually, under conditions determined by the Faculty, to a member of the Senior class for excellence in history and the social and economic sciences. The holder of the Fellowship pursues for one year, at an institution approved by the Faculty, a course of study in history or economics, to be completed within the period of two years next following graduation. The amount of the Fellowship is paid in two instalments, one on completion of one-half the year's work, the other at the end of the year.

### THE RUFUS B. KELLOGG UNIVERSITY FELLOWSHIP

The gift of the late Rufus B. Kellogg of the Class of 1858, awards the income of about thirty thousand dollars for seven years to an alumnus of Amherst College, who shall be appointed upon the following conditions:

(1) He shall be elected by the Faculty from the members of the class graduated at the close of the academic year in which this election shall be made, or from the members of the classes graduated in the six years immediately preceding the academic year in which this election shall be made.

(2) The Faculty shall select as the incumbent of the said Fellowship the man who, in their judgment, is best equipped for study and research, without regard to any other consideration whatsoever, except that he shall have an especially good knowledge of the Latin and German languages.

(3) The first three years of the term of seven years the

incumbent shall spend at a German university (or with the approval of the Faculty of Amherst College, at any other place or places), in the study of philosophy, philology, literature, history, political science, political economy, mathematics, or natural science. The last four years of the term of seven years shall be spent as a lecturer at Amherst College. But the incumbent shall not give more than thirty lectures per annum, and shall not be required to reside at Amherst more than one college term of any year. The lectures shall be upon a subject selected by himself and approved by the Trustees and shall be given to the Senior class, but the members of all the classes shall have the privilege of attending; and the incumbent shall cause the lectures to be published at the end of his official term in good book form. He shall have no occupation or employment during the period of his Fellowship, except such as pertains to the duty of his Fellowship.

#### THE EDWARD HITCHCOCK FELLOWSHIP

Of one thousand dollars, was founded by the late Mrs. Frank L. Babbott of Brooklyn, N. Y., to promote graduate study in the department of physical education. Its object is to make the student familiar with the best methods of physical training, both in the gymnasium and on the field. The appointment is made by the Faculty.

#### THE SOUTH END HOUSE FELLOWSHIP

Of six hundred and fifty dollars, is provided by alumni of Boston and vicinity. The incumbent is in residence one year at the South End House, Boston, for the purpose of investigating social conditions and rendering service according to the methods of a university settlement. The appointment is made by the Trustees of the College.

THE AMHERST MEMORIAL FELLOWSHIP FOR THE STUDY  
OF SOCIAL, ECONOMIC, AND POLITICAL  
INSTITUTIONS

A Fellowship to perpetuate the memory of those Amherst men who gave their lives for an ideal. The following statement from the donor explains the purpose of this Fellowship:

“Realizing the need for better understanding and more complete adjustment between man and existing social, economic, and political institutions, it is my desire to establish a Fellowship for the study of the principles underlying these human relationships.

“To be eligible for appointment to this Fellowship, a candidate should be a college or university graduate—though not of necessity a recent graduate. He should be a man of sound health. During his previous training he should have shown those qualities of leadership which are founded on strength of character. He should have given evidence of marked mental ability in some branch of the social sciences—economics, political science, and history—and have given promise of original contribution to his particular field of study. He should have demonstrated a spirit of service rather than ambition for personal advancement, and should intend to devote his life to the betterment of social conditions through teaching in its broad sense, journalism, politics, or field work.

“A Fellow shall be appointed every second year for a period of not more than four years, depending upon the qualifications and requirements of the individual candidate. It is earnestly desired that at least half of his appointment shall be spent in study in Europe. The last year, in part or in whole, depending upon the decision of the Committee in charge and the Board of Trustees of the College, shall be given to Amherst College. It is hoped that each Fellow

shall at some time deliver a course of lectures at Amherst, and that these may be published.

"The Fellowship fund will provide \$2,000.00 a year for each Fellow.

"The Committee in charge shall be composed of five men: The President of the Board of Trustees of Amherst College, the President of Amherst College, and three others, to be appointed by them—one of whom shall be a member of one of the Departments of Social Science at Amherst College. Of the two remaining members, at least one shall have no connection with Amherst College. One shall be a business or professional man, and one shall be definitely associated with some other college or university.

"It is desired to have this Fellowship meet the demands of existing social and intellectual requirements, and to this end the Committee may modify this original deed of gift every ten years. The donor reserves the right to consult with the Committee regarding suggested modifications. If at any time, in the opinion of the Committee, there is no further need for this Fellowship, the Fund shall be transferred to the General Endowment Fund of Amherst College."

#### THE JOHN WOODRUFF SIMPSON FELLOWSHIPS AND LECTURESHIPS

A fund of \$150,000 given in memory of John Woodruff Simpson of the Class of 1871, by his wife and daughter. The uses of the income as defined by the donors are as follows:

"1. To award to any graduate of Amherst College a fellowship for use in studying law at any school approved by the Board of Trustees of the College;

"2. To award to any graduate of Amherst College a fellowship for use in studying medicine at any school approved by the Board of Trustees of the College;

"3. To award to any graduate of Amherst College a fellowship for use in studying theology at any school approved by the Board of Trustees of Amherst College, without regard to the particular creed or particular religious belief taught thereat;

"4. To award to any graduate of Amherst College a fellowship for use in graduate study at the universities of Oxford or Cambridge in England;

"5. To award to any graduate of Amherst College a fellowship for use in graduate study at the Sorbonne in Paris;

"6. To secure from time to time from England, France or elsewhere scholars for the purpose of delivering lectures or courses of instruction at Amherst College."

#### FELLOWSHIPS AWARDED BY THE AMERICAN SCHOOLS OF CLASSICAL STUDIES AT ATHENS AND ROME

The attention of graduate students interested in the Classics and in Archaeology and Ancient Art is called to the opportunities offered by the American Schools of Classical Studies at Athens and Rome. As the College contributes regularly to the support of these schools, any Amherst graduate may enjoy the privileges of study at either school without charge for tuition and may compete for the annual fellowships which they offer. Further information may be obtained from any classical teacher at the College.

## SCHOLARSHIPS AND BENEFICIARY AID

*The officer directly in charge of the administration of scholarships and beneficiary aid is the Dean of the College.*

The beneficiary funds of the College aggregate four hundred and twenty thousand dollars. Except as otherwise provided by the donors, the income of these funds is distributed annually, among students of high character and good scholarship who need pecuniary aid.

Aid from beneficiary funds is given to students who maintain a high standard of honor, who have no delinquency in any subject, whose average rank is not below seventy per cent, whose habits are economical, and who are candidates for a degree.

Awards are paid in instalments, at the beginning of the college year and on February first. The award is made for the entire year.

Applicants for scholarships in the three upper classes must file at the Dean's office, on or before June 1, an account of their income and expenditures for the current year, and a statement of their resources for the following year.

Applicants for the renewal of scholarships must present an account of their expenditures and income for the current year.

Scholarships are of three grades: two hundred dollars, one hundred and eighty-five, and one hundred and seventy dollars, the amount being credited on tuition bills. Scholarships of the first grade are awarded to students whose average is A (90% to 100%); of the second grade, to students whose average standing is B (80% to 90%); of the third grade, to students whose average standing is C (70% to 80%).

## SCHOLARSHIPS FOR INCOMING STUDENTS

A limited number of scholarships are awarded annually to applicants for admission to college who are in need of financial aid and who meet in full the entrance requirements. These scholarships are awarded for the first half year and entitle the recipient to a credit of one hundred dollars on the first bill for tuition. The continuation of each scholarship for the second half of the year depends upon the student's grade for the first term, and, when granted, involves a credit on the second bill for tuition in accordance with the following schedule: for a grade of C, seventy dollars; for a grade of B, eighty-five dollars; for a grade of A, one hundred dollars.

Blanks for application may be obtained from the Dean, and, when filled out by the applicant, must be accompanied by two letters concerning need, character, and attainments. One of these letters should be from the principal of the school.

Awards are made from the income of the following funds:

THE CHARITABLE FUND, \$100,000, primarily in aid of those studying for the Christian ministry. Any surplus income may be awarded to other students in the classical course.

#### STUDENT LOAN FUND

Through the liberality of friends of the College, provision is made for loans of a limited amount to a few students in the later years of the course, at a low rate of interest, upon notes acceptably endorsed and payable one or two years after graduation. In accordance with the conditions imposed by the donors of the Loan Fund, its use is limited to students of thorough scholarship whose habits of expenditure are economical.

Application blanks may be obtained at the Treasurer's office. It is the policy of the committee not to make any loan until at least one term of the college course has been completed.

## BUILDINGS AND GROUNDS

### SITUATION

The town of Amherst lies in the Connecticut Valley about one hundred miles west of Boston, and almost the same distance north of New Haven, on the eastern border of the valley, some four miles from the river. The College stands on the top of a hill with an outlook over the town and the valley, westward to the distant Berkshire and Hampshire Hills, southward to the Holyoke Range, eastward to the Pelham Hills, and northerly to Mount Toby and Sugar Loaf. From any building and from most points on the grounds there is a broad outlook over beautiful scenery. Most of the buildings are on the hill, grouped about the Campus. On the other side of Pleasant Street, the main thoroughfare of the town, are the Morgan Library, College Hall, and the President's House. About five minutes' walk from the Campus are the Observatory, Pratt Field, and Pratt Skating Rink. The Pratt Health Cottage is farther away, on the northern edge of the town.

### BUILDINGS AND EQUIPMENT

The buildings about the Campus are the dormitories, library, laboratories, chapel, church, gymnasium, and the buildings used for the class-rooms and administrative offices. Walker Hall, which is the focus of most of the paths on the grounds, contains the offices of the President, the Dean, the Secretary, the Treasurer, and the Recorder, and many class-rooms. Barrett Hall has class-rooms for German and Romance languages; Williston Hall for Latin, Greek, and English. Other class-rooms are in the chapel building, the Octagon, and the laboratory buildings.

The Converse Memorial Library is a new building, first opened for use in the autumn of 1917. It has dignity and beauty, besides ample space and equipment for the convenience and comfort of all who use the library. The total book capacity is 300,000 volumes. The reading and periodical rooms will accommodate one hundred readers at a time. The Converse or "browsing" room is lined with open shelves among which the students may explore for themselves as they might in well-filled libraries in their own homes. The Clyde Fitch room is a replica of the dramatist's study as it was in his house in New York. Much space has been devoted to the Department rooms, of which there are eleven provided for such study, research, and seminar work as may be done with the book collection close at hand. The book collection at present numbers about 130,000 volumes, freely available to students.

Fayerweather Laboratory houses the departments of physics and chemistry. In the south wing the Department of Physics has a large lecture room with apparatus rooms adjoining, library and reading room, recitation room, laboratories for elementary experimental work, for work in electricity and for research, a balance room, dark rooms for photographic and for general work, an optical room, and a spectroscope room equipped with a concave grating spectroscope. In the basement are battery rooms, a room for special researches, a workshop and dynamo room with electric and waterpower. In the north wing of the building, the Department of Chemistry has general lecture and recitation rooms, a library and reading room, laboratories for general, analytical, and organic chemistry, and also a complete equipment for water and gas analysis.

The biological and geological laboratories occupy a large building on the south side of the Campus, commanding a wide and varied view which affords ready illustrations

of many geological phenomena. Besides lecture and class-rooms, laboratories and work rooms, the building contains the museums of the two departments. In the biology museum are the Adams collection of shells, a part of Audubon's celebrated collection of birds, a synoptic collection of the animal kingdom, and a collection of fossil vertebrates. The geology museum includes the Woods Cabinet, containing about twenty-five thousand specimens of minerals, a general American and European historical geology collection, the State Survey collections of New Hampshire, Vermont, Massachusetts, and Connecticut, the Shepard meteorite collection, and a collection of fossil vertebrates. In another room is shown the Hitchcock Ichnological collection of some twenty thousand tracks of animals in stone. Appleton Cabinet contains the anthropological collection, the herbarium, and an unusually complete and interesting collection of Indian relics.

The Observatory has two domes, the larger of which, thirty-five feet in diameter, houses an eighteen-inch Clark telescope. The smaller has a seven and one-fourth inch refractor. The equipment comprises also an altazimuth, two transits, with the usual accessories for meridian observations, and instruments for instruction in the theory and practice of navigation.

The Chapel and the College Church stand respectively on the west and the east borders of the Campus. Morning exercises are held in the Chapel on week-days, and regular Sunday services in the Church.

The Octagon is used exclusively by the Department of Music. It has rooms arranged for classes, practice, and chorus and orchestra rehearsal. A grand piano and an Aeolian orchestrelle are provided for use in classes, and by students for purposes of study.

North and South Colleges, and Morris Pratt Memorial

Dormitory, are the college dormitories. The two former are two of the oldest, and the latter one of the newest, of the college buildings. All three buildings are heated by steam and lighted by electricity. Most of the rooms have open fireplaces, and all have hardwood floors. Morris Pratt Memorial Dormitory is of fire-proof construction throughout, and has a large and beautiful resort room on the first floor. The dormitories have single rooms and suites consisting of a study and one or two bedrooms.

College Hall is a large colonial building, once the village church, now the main assembly hall of the College. It is used for the Commencement exercises, and for all the larger gatherings, such as student mass-meetings, and public lectures.

The Mather Art Museum occupies the third floor of Williston Hall, and the vestibule and stairway leading to it. It consists of plaster casts, principally of Egyptian, Mycenaean, Greek and Roman sculpture, with a number of examples of Renaissance and later sculpture, both in relief and in the round. Further resources for the study of art are found in the library, and in some of the class-rooms. In addition to the catalogued books and photographs, there are in the vestibule of the Morgan Library building several Assyrian slabs, with inscriptions in cuneiform characters, which were obtained by the late Henry Lobdell, D.D., of the Class of 1849, from the walls of the palace of Assurnazirpal at Nimroud. The Latin and Greek rooms in Williston Hall have many casts in bronze and plaster, as well as collections of photographs, engravings, and stereopticon slides.

The Pratt Gymnasium contains, in the main building, a large hall with ample space and equipment of apparatus for general and specialized exercises, the offices of the Department of Physical Education, a fencing and wrestling room, bowling alleys, a sparring room, and a baseball cage.

A wing known as the Pratt Natatorium contains a swimming-pool seventy-five feet long and twenty-two feet wide, and large and small squash-racquet courts.

Hitchcock Memorial Field, of about forty acres, named in honor of Dr. Edward Hitchcock, '49, adjoins the Gymnasium. It contains twenty-four tennis courts, two basketball courts, and four large fields for baseball, football, or soccer. In addition there are areas and equipment for intramural track and field athletics. This field will accommodate three hundred students in the different forms of exercises at one time.

Pratt Field, given to the College by Frederic B. Pratt of the Class of 1887, has an area of about thirteen acres, and is used chiefly for intercollegiate games. It has a quarter-mile track and space for field contests, a baseball diamond, football grounds, and tennis courts. The grandstand seats about five hundred, and has dressing-rooms and shower baths for contestants.

Pratt Skating Rink, given to the College by Charles M. Pratt of the Class of 1879, adjoins Pratt Field. It has an area of 200 x 115 feet for ice skating, and a bungalow equipped with heating apparatus and lockers.

The Baseball Cage being completed this winter on the western side of Hitchcock Field will be one hundred and sixty feet square and eighty feet high at the peak. The roof will be of glass and slate furnishing ample light without bad cross light. There will be a running track on the dirt floor twelve feet wide protected by netting. Within will be an area one hundred and thirty-six feet square, ample for infield baseball practice. The cage will be fully equipped. In an adjoining building there will be an office, lockers, and shower baths. The property adjoining the cage on the north and fronting on South Common has been secured by the College for erecting later a new gymnasium.

Pratt Health Cottage is the college infirmary. It stands on high ground north of the College, commanding a wide view in every direction. Its space and equipment are sufficient for the accommodation and care of students temporarily disabled by accident or disease.

## PUBLICATIONS

### COLLEGE PUBLICATIONS

The annual *Catalogue* is sent to all the alumni of the College, to all schools from which students are received, and to any who ask for it.

An address list of living alumni is issued once in two years.

A record of graduates deceased during the year is issued annually in Commencement week.

### THE AMHERST BOOKS

As a part of the celebration of the one hundredth anniversary, the College has begun the publication of a series of volumes written by Amherst men to be known as THE AMHERST BOOKS. The first book is former President Alexander Meiklejohn's *The Liberal College*, published in October, 1920. Succeeding volumes are Professor John F. Genung's last work, *The Life Indeed*, Professor Henry Preserved Smith's *Essays in Biblical Interpretation*, Professor Otto Manthey-Zorn's *Germany in Travail*, Professor Anson D. Morse's *Parties and Party Leaders*, with an introduction by Dwight W. Morrow, and Professor John Mason Tyler's *The Coming of Man*. ~~Other volumes are in preparation and will be announced later.~~ Manuscripts may be received from faculty, alumni or trustees. An editorial board from the faculty is in charge of the series, which is published by Marshall Jones Company, 212 Summer Street, Boston. Manuscripts or orders for the Amherst Books may be sent to the Managing Editor, Professor H. H. Plough, Amherst, Massachusetts.

### STUDENT PUBLICATIONS

A *Handbook*, published and distributed annually by the Christian Association, contains information chiefly useful to new students.

A semi-weekly paper, *The Amherst Student*, containing college news, accounts of games, notices of alumni, and discussion of college affairs, is issued by an editorial board of students.

*The Amherst Writing*, conducted by students, contains articles, essays, poems, stories, and book notices.

*The Olio*, published annually by the Junior class, contains names of the members of fraternities, of officers and members of athletic, musical, literary, and dramatic organizations, of students receiving prizes and honors, and various matters of interest to the College.

#### ALUMNI PUBLICATIONS

The *Amherst Graduates' Quarterly* is published in November, February, May, and August. It contains articles of educational value, news of the alumni, accounts of undergraduate activities, reviews of books, and various matters of interest to alumni. Communications for the Editors, as well as all business communications, should be addressed to *Amherst Graduates' Quarterly*, Box 607, Amherst, Mass.

## RAILROAD CONNECTIONS

The Boston and Maine Railroad (Central Massachusetts division), connecting at Springfield with the Boston and Albany Railroad, passes through Amherst on the way from Boston to Northampton.

The Central Vermont Railroad, connecting at Palmer with the Boston and Albany Railroad, passes through Amherst.

There are electric street railways from Amherst to Northampton, Holyoke, and Springfield.

## VISITORS

Visitors are always welcome at Amherst College. During the months of July and August the college employs a student guide who may be found at the Christian Association Rooms from eight-thirty A. M. to five-thirty P. M. The services of the guide are without fee.

During the remainder of the year a guide will be furnished without charge upon application at the Office of the Secretary, Number 7, Walker Hall.

## INFORMATION

Requests for information should be addressed to the Secretary of the Faculty, Amherst College, Amherst, Mass.
